

DR. THIMMAIAH K A

Consultant – Urology, Andrology, and Kidney Transplant Surgeon

Qualification

MBBS | MS (General Surgery) | DNB (Urology)

Overview

Dr. Thimmaiah K A is an experienced urologist in Mysuru. He is currently practising as a Consultant – Urology, Andrology, and Kidney Transplant Surgeon at Manipal Hospital, Mysuru. With over five years of specialized experience in urology, Dr. Thimmaiah holds a strong background in managing complex urological conditions. His expertise includes endourology, laparoscopic surgeries, kidney transplantation, and uro-oncology. His extensive training enables him to perform procedures with precision, ensuring the highest standards of patient care. Dr. Thimmaiah completed his MBBS from JSS Medical College, Mysore, and holds an MS in General Surgery from Coimbatore Medical College. He later pursued a DNB in Urology from Manipal Hospital, Mysuru, where he received advanced training in minimally invasive and reconstructive surgeries. His background in surgical education provides him with the technical skills required for high-level procedures, such as robotic surgery for urologic cancer and complex reconstructive surgeries. In his current role, Dr. Thimmaiah specializes in endourological procedures, such as ureteroscopy (URS), retrograde intrarenal surgery (RIRS), and percutaneous nephrolithotomy (PCNL),

which are essential in treating kidney stones and other urological conditions. He is also skilled in performing transurethral resection of the prostate (TURP), laparoscopic nephrectomy, and reconstructive surgeries. His surgical expertise extends to female urological conditions, including incontinence and pelvic organ prolapse, enabling him to offer a comprehensive range of treatments tailored to individual needs. Dr. Thimmaiah is particularly passionate about preventive care in urology. He advises patients on lifestyle changes and preventive measures that can help avoid future complications, such as kidney stones and urinary incontinence. His commitment to patient education is evident in his approach to care, as he emphasizes the importance of understanding one's health and treatment options. He consistently seeks to improve patient outcomes by staying updated with the latest advancements in urology. In addition to his clinical practice, Dr. Thimmaiah actively contributes to research, with studies focused on areas like emphysematous pyelonephritis and hyperbilirubinemia in acute appendicitis. He is also affiliated with professional organizations that promote excellence in urology and surgery, reflecting his commitment to continual learning and excellence in his field. Dr. Thimmaiah is fluent in Kannada, English, Hindi, and Tamil, enabling him to connect effectively with a diverse patient base. His language skills facilitate clearer communication, ensuring that patients fully understand their treatment options and feel comfortable discussing their health concerns.
