

DR. ILIN KINIMI

Consultant - Paediatric Pulmonology & Sleep Medicine

Qualification

MD (Paediatrics) | Clinical Fellowship - Paediatric Pulmonology & Sleep Medicine | ERS (European Respiratory Society) | Diploma in Paediatric Pulmonology / Respiratory Medicine.

Overview

Dr. Ilin Kinimi is a highly qualified and experienced consultant in paediatric pulmonology. With a specialisation in paediatrics and an additional clinical fellowship in paediatric pulmonology and sleep medicine, Dr. Kinimi possesses a comprehensive understanding of children's respiratory health. She is currently practicing as a Consultant in Paediatric Pulmonology at Manipal Hospitals, Old Airport Road. The doctor is affiliated with various prestigious organisations such as the European Respiratory Society and holds multiple diplomas in paediatric pulmonology and respiratory medicine. Dr. Kinimi is an enlisted individual from the Medical Council of India related to medical councils and associations in Delhi and Karnataka. These affiliations mirror his commitment to keeping up with the best expectations of medical practice and remaining refreshed with the most recent progressions in his field. She holds memberships in renowned bodies like the Singapore Academy of Pediatrics and the Indian Academy of Pediatrics, explicitly the Respiratory Section. She is a foremost pediatric sleep specialist in Old Airport Road. Another area of Dr Kinimi's expertise is non-invasive ventilation, notably home ventilation, and long-term support. She is skilled in providing respiratory support to children who

require transitional care from the intensive care unit to their homes. This specialised care helps children with respiratory conditions achieve an improved quality of life and better respiratory outcomes. Dr. Kinimi also specialises in cystic fibrosis, a chronic condition that affects the lungs and other organs. She runs cystic fibrosis clinics that provide comprehensive diagnostics, interventions, and long-term care for children with this complex condition. Dr. Kinimi is one of the best paediatric pulmonologists in Bangalore. Dr. Kinimi aims to enhance their health and well-being by closely monitoring and managing their symptoms. Furthermore, Dr Kinimi is experienced in managing interstitial lung disease and other chronic lung diseases in children. These conditions can be challenging to diagnose and treat, but Dr. Kinimi's expertise allows him to provide accurate diagnoses and develop personalised treatment plans for his young patients. Dr. Kinimi is skilled in performing paediatric flexible bronchoscopy for diagnostic and therapeutic interventions. This procedure enables her to visualise the airways, obtain samples for analysis, and administer targeted treatments when necessary. With her proficiency in this technique, she can offer minimally invasive and effective interventions for various respiratory conditions in children. Dr. Kinimi's dedication to her field is evident through her involvement in talks and publications. She has various credentials for her specialisation, such as DR V Balagopal Raju Endowment Award (Gold Medal) 2004 and SMT. VED and Shri Sita Ram Award 2005 highlight her contributions to paediatric pulmonology and her commitment to improving children's respiratory health. She continues to provide excellent care to children with respiratory conditions, advocating for early intervention and comprehensive management to ensure a healthier future for her patients.
