

## DR. SANJIV SHARMA

Consultant - Radiation Oncology

### Qualification

MBBS | MD (Radiotherapy), PGI, Chandigarh, | DNB (Radiotherapy) - National Board of Examinations, New Delhi

### Overview

Dr. Sanjiv Sharma is a profoundly achieved and skilled expert in Radiation Oncology. With a broad educational background and various associations and memberships, he is regarded and perceived in the medical community. His major is in brachytherapy strategies, modern conformal radiation procedures, and the therapy of different kinds of malignant growths. He is conversant in English, Hindi, and Kannada, which permits him to speak with a diverse scope of patients quickly. He is the best radiotherapist in Bangalore. Dr. Sharma received his MBBS degree and MD in Radiotherapy from PGI, Chandigarh. He further pursued his DNB in Radiotherapy from the National Board of Examinations in New Delhi. These qualifications reflect his commitment to acquiring in-depth knowledge and staying current with the latest advancements in his field. Dr. Sharma participates in several prestigious expert associations to demonstrate his commitment and continuous learning. These include the Association of Radiation Oncologists of India, the Association of Medical Physicists of India, the Indian Society of Oncology, the Indian Brachytherapy Society, and the Association of Gynecologic Oncologists of India. Besides, he is a subsidiary of global social orders like the American Society of Radiation Oncology (ASTRO) and the European Society of Radiation Oncology (ESTRO). These enrollments permit him to team up with specialists worldwide, trade thoughts, and remain at the front of the field. For the same reason, he is considered the best radiation oncologist in Bangalore. Dr. Sharma's expertise encompasses a wide range of radiation therapy techniques. He has significant experience with brachytherapy, including image-directed brachytherapy, which includes the exact position of radioactive sources straightforwardly into or close to the cancer site. Furthermore, he has broad information and capability in current conformal radiation procedures, for example, 3D conformal radiation treatment (3DCRT), intensity-modulated radiation therapy (IMRT), image-guided radiation therapy (IGRT), stereotactic radiosurgery (SRS), and stereotactic body radiation therapy (SBRT). These techniques enable precise targeting of tumours while minimising damage to healthy surrounding tissues. With familiarity with numerous dialects, Dr. Sharma guarantees compelling communication with his patients, permitting them to feel excellent and educated throughout their treatment process. He comprehends the significance of customised care and sets aside some margin to address any worries and answer questions, guaranteeing that patients are effectively engaged with their treatment choices. Dr. Sharma's contributions extend to research and academic publications. He has authored and co-authored numerous papers, with his work being cited in renowned databases such as PubMed. His publications demonstrate his commitment to advancing knowledge in radiation oncology and sharing his expertise with the broader medical community.

### Fellowship & Membership

- Association of Radiation Oncologists of India,

- Association of Medical Physicists of India
- Indian Society of Oncology
- Indian Brachytherapy Society
- Association of Gynecologic Oncologists of India
- American Society of Radiation Oncology (ASTRO)
- European Society of Radiation Oncology (ESTRO)

## Field of Expertise

- The long experience of brachytherapy techniques of all types and for all body sites, including image-guided brachytherapy.
- The vast experience of modern conformal radiation techniques like 3DCRT, IMRT, IGRT, SRS & SBRT

## Languages Spoken

- English
- Hindi
- Kannada

## Awards & Achievements

- Visiting Clinical Assistant from Jan-June 1990 at Cookridge Hospital, University of Leeds, U.K.
- UICC fellowship on Brachytherapy from 06.09.1994 to 07.10.1994 at Memorial Medical Centre Long Beach, California, USA.
- UICC fellowship on palliative care from 01.09.1997 to 30.09.1997 at International School for Palliative Care, Oxford, UK.
- UICC fellowship on palliative care from 02.08.1999 to 31.08.1999 at Johns Hopkins Oncology Centre, Baltimore, U.S.A.
- UICC fellowship on IMRT from 14.10.2002 to 26.10.2002 at Memorial Sloan Kettering Cancer Centre, New York, U.S.A.
- UICC fellowship on High Dose Rate Brachytherapy from 12.10.2004 to 12.11.2004 at Ohio State University, Columbus, U.S.A.
- UICC fellowship on Stereotactic Radiosurgery & Radiotherapy from 15.10.2006 to 10.11.2006 at Department of Human Oncology, University of Wisconsin, Madison, U.S.A.
- UICC fellowship on Image-Guided Radiation Therapy from 15.09.2008 to 03.10.2008 at William Beaumont Hospital, Royal Oak, Michigan, USA.
