

DR. RICHA SINGH

Consultant - Neurology

Qualification

MBBS | M.D (Medicine) | DM (Neurology)

Overview

Dr. Richa Singh is an exceptionally skilled and accomplished neurologist at Old Airport Road with years of rich clinical experience specialising in acute neurovascular interventions, comprehensive headache management, and complex neuromuscular disorders. She is currently practising as a Consultant – Neurology at Manipal Hospital Old Airport Road, Bangalore. Dr. Singh possesses advanced expertise in evaluating and treating intricate pathologies affecting the brain, spinal cord, peripheral nerves, and muscles. Her meticulous approach to neurological mapping and long-term neuro-rehabilitation planning has established her as a premier neurologist specialist in Bangalore for high-acuity brain and nerve care. Dr. Richa Singh completed her foundational MBBS degree, followed by a post-graduate MD in General Medicine, developing a comprehensive understanding of multisystem conditions and metabolic medicine. Achieving top super-speciality training, she earned her DM in Neurology, where she underwent extensive clinical residency in neuro-critical care, stroke interventions, and advanced diagnostics. Her commitment to advanced medical care and clinical excellence has positioned her among the Best Oncologist in

Bangalore for comprehensive patient-focused treatment. At Manipal Hospital Old Airport Road, Dr. Richa Singh manages a diverse spectrum of acute and chronic neurological conditions. Her clinical portfolio highlights expert intervention in stroke care—extending from hyperacute ischemic stroke management to secondary prevention and vascular cognitive impairment tracking. She holds dedicated expertise in managing complex headache syndromes, degenerative cognitive decline, and chronic memory conditions such as Alzheimer's disease. Her comprehensive care protocols address movement disorders, providing targeted therapeutic management for Parkinson's disease, essential tremors, and dystonia, which reinforces her standing among the best neurologist specialists in Bangalore. Dr. Richa adopts a multidisciplinary approach to neurological care, combining medical management, rehabilitation strategies, preventive care, and patient education to optimise long-term neurological health and quality of life. She places particular emphasis on early diagnosis, stroke prevention, seizure control, cognitive health, and functional recovery, while ensuring patients and caregivers are actively involved in every stage of treatment through clear communication and shared decision-making. A dedicated researcher and academician, Dr. Richa Singh actively presents benchmark studies at national neurology conferences. Her contributions to global medical literature include published research in peer-reviewed journals on overlooked cardiovascular anomalies like cardiac arrhythmias in Wilson's disease, alongside key presentations on spontaneous intracerebral haemorrhage outcomes (APICON) and rare manifestations like craniospinal junction tuberculosis (INTROPICON). Fluent in English, Hindi, Marathi, and Bangla, she creates an extraordinarily comforting, multi-lingual, and empathetic environment, ensuring patients and their caregivers receive absolute clarity throughout their therapeutic journeys.
