

DR. AKSHAY P R

Consultant – Urology

Qualification

MBBS | MS | DrNB Urology

Overview

Dr. Akshay P R is a highly skilled urologist in Old Airport Road, Bangalore. He is currently practising as a Consultant – Urology at Manipal Hospital Old Airport Road, Bangalore, bringing over a decade of clinical training, surgical expertise, and patient-centred commitment to the management of urological diseases. Known for his structured thinking, precision in technique, and ability to simplify complex medical decisions for patients, he is widely regarded as one of the best urologists in Old Airport Road, especially for minimally invasive urological procedures and advanced endourological care. With a strong academic foundation, Dr. Akshay began his medical journey with an MBBS from JJM Medical College, Davangere, between 2009 and 2015. During this period, he developed a deep interest in anatomy, operative planning, and clinical reasoning—skills that laid the groundwork for his future as a surgeon. His passion for surgical sciences led him to pursue an MS in General Surgery at the Government Madurai Medical College from 2016 to 2019, where he gained robust exposure to trauma surgery, abdominal operations, perioperative care, and emergency surgical management. This foundational training strengthened his

operative judgement and prepared him for superspecialisation. In December 2020, he joined the Department of Urology at Manipal Hospital, Old Airport Road, for his DrNB Urology training. Over three intensive years, he trained under senior urologists in a high-volume tertiary centre known for its complex case spectrum, advanced surgical infrastructure, and multidisciplinary ecosystem. This period helped him achieve proficiency across the full breadth of urology, including endourology, uro-oncology, reconstructive urology, renal transplantation, and laparoscopic urological procedures. His exposure to cutting-edge technology, such as LASER surgery, flexible ureteroscopes, modern imaging platforms, and robotic assistance, refined his technical confidence and adaptability. Dr. Akshay holds membership in respected professional bodies, including the Urological Society of India, Karnataka Urology Association, Bangalore Urology Association, and Youth of Urology. These affiliations fuel his continued learning and keep him aligned with evolving global and national guidelines in urological care. His surgical expertise spans a comprehensive range of procedures. In minimally invasive and endoscopic interventions, he is proficient in RIRS, URS, VIU, DJ stenting, Mini PCNL, Holmium laser prostate surgery, TURP, TURBT, and cystoscopy-based interventions. He performs laparoscopic surgeries such as nephrectomy, pyeloplasty, ureteric re-implantation, and partial nephrectomy, and is trained in robotic urological procedures, including robotic VVF repair, robotic pyeloplasty, robotic sacrocolpopexy, and robotic nephroureterectomy. In reconstructive urology, he is well-versed in BMG graft urethroplasty, vesicovaginal fistula repairs, and urethral stricture management. His expertise also extends to renal transplantation, male infertility surgery, varicocele repair, hydrocele surgeries, orchiopexy, orchiectomy, and surgeries for penile malignancies. His ability to perform AV fistula surgeries further strengthens his contribution to renal care pathways. Clinically, his areas of interest include kidney stones, ureteric stones, prostate enlargement, strictures, urinary infections, male sexual dysfunction,

infertility, uro-oncology, and female urology. His practice covers evaluation, medical management, and surgical intervention as required. With his calm demeanour, ethical approach, and empathetic communication style, he strives to ensure that patients feel supported, informed, and involved in every step of their care. Today, as one of the best urologists in Old Airport Road, Dr. Akshay integrates advanced surgical skills with evidence-based decision-making. His holistic vision prioritises patient comfort, long-term outcomes, and minimal postoperative discomfort. Currently practising at Manipal Hospital, Old Airport Road, he remains committed to delivering ethical, high-quality, and comprehensive urological care for individuals across age groups.

Fellowship & Membership

- Member of Urology Society of India
- Member of Karnataka Urology Association
- Member of Youth of Urology
- Bangalore Urology Association
- Association of surgeons of India

Field of Expertise

- Minimally invasive urologic surgery: TURP, Laser TURP, REZUM
- Endourology : URS, RIRS, VIU, Mini PCNL
- Kidney transplant
- Laparoscopic Urologic surgeries : Nephrectomy, Pyeloplasty, Ureteric Re implant, Partial Nephrectomy
- Robotic urology and Uro oncology : Nephrouretercomy, Nephrectomy, Pyeloplasty, Ureteric Re implant, Partial Nephrectomy
- Urethral Reconstruction: BMG Graft Urethroplasty, Robotic Sacrocolpopexy

- Robotic VVF repairs
