

**DR. KANCHAN TOPGI**

Consultant – Aesthetic Dermatology

**Qualification**

MBBS | MD (DVL)

## Overview

Dr. Kanchan Topgi is a distinguished aesthetic dermatologist in Old Airport Road with specialised expertise in advanced skin rejuvenation, anti-ageing procedures, laser dermatology, and hair restoration treatments. She is currently practising as a Consultant – Aesthetic Dermatology at Manipal Hospital Old Airport Road, Bengaluru, with extensive experience in combining clinical dermatology with modern aesthetic medicine to deliver refined, medically grounded skin and hair care solutions. Dr. Kanchan completed her MBBS from the renowned M S Ramaiah Medical College, Bengaluru, following which she pursued her MD in Dermatology, Venereology and Leprology from S S Institute of Medical Sciences, Davanagere, under Rajiv Gandhi University of Health Sciences. During her postgraduate training, she secured a place among the top 10 university rank holders in Karnataka, reflecting her strong academic foundation and commitment to excellence in dermatology. With a deep understanding of both cosmetic and therapeutic dermatology, Dr. Kanchan focuses on enhancing skin health and hair vitality through customised treatment approaches tailored to individual concerns and skin profiles. Her expertise in facial

aesthetics, injectables, laser procedures, and regenerative dermatology has made her one of the best dermatologists in Old Airport Road for advanced aesthetic and anti-ageing treatments. She is recognised for maintaining a balanced approach that prioritises natural-looking outcomes while preserving skin integrity and long-term dermatological health. Her clinical expertise spans a wide spectrum of aesthetic and procedural dermatology services. She performs anti-wrinkle treatments, hyaluronic acid fillers, thread lifts, non-surgical facelifts, skin boosters, and advanced anti-ageing therapies with a strong emphasis on facial balance and skin quality improvement. She is also experienced in regenerative aesthetic procedures, including PRP therapy, stem-cell-based hair restoration approaches, mesotherapy, and advanced trichology treatments for hair thinning and patterned hair loss. Dr. Kanchan is also highly experienced in advanced laser dermatology. Her procedural expertise includes Diode laser, Fractional CO2 laser, and Q-switched laser treatments for acne scars, pigmentation, skin resurfacing, tattoo reduction, and textural skin concerns. In addition, she performs chemical peels, sublative radiofrequency procedures, dermatosurgical treatments for moles and warts, and minimally invasive cosmetic procedures designed to improve overall skin clarity and texture. Beyond clinical practice, Dr. Kanchan has established a strong academic presence in the field of aesthetic dermatology. She has served as invited faculty and speaker at several prestigious dermatology conferences and workshops. Her academic contributions extend to national and international paper and poster presentations, including participation at the World Congress of Cosmetic Dermatology and the World Congress of Dermoscopy. She has also been recognised with the International Travel Grant Award from the International Dermoscopic Society (IDS), reflecting her contribution to academic dermatology and dermoscopy education.
