

DR. NEHA BHARGAVA

Consultant - Paediatric Emergency Medicine

Qualification

MBBS | DNB (Paediatrics) | Fellowship (IAP) Paediatric Emergency Medicine

Overview

Dr. Neha Bhargava is an experienced paediatric emergency physician, currently practising as a Consultant – Paediatric Emergency Medicine at Manipal Hospital. With over 10 years of experience in paediatric acute care, emergency medicine, and critical illness management, she has developed extensive expertise in managing medical emergencies, rapid stabilisation of critically ill children, and delivering evidence-based emergency care. Her expertise in acute paediatric management and emergency interventions has established her among the best paediatric emergency specialists in Old Airport Road for comprehensive emergency care services. Dr. Neha completed her MBBS from Indira Gandhi Government Medical College, Nagpur, followed by a DNB in Paediatrics from Lakeside Institute of Child Health, Bangalore. She further enhanced her clinical exposure through an observership at the renowned Wadia Hospital, Mumbai, before pursuing a Fellowship in Paediatric Emergency Medicine under the Indian Academy of Paediatrics (IAP) at Manipal Hospital, Bangalore. This specialised training strengthened her expertise in managing complex paediatric emergencies and acute critical care situations. At

Manipal Hospital, Dr. Neha's clinical focus centres on paediatric acute care, complex trauma stabilisation, and emergency medical management. She routinely manages high-stress scenarios, including septic shock, acute respiratory distress, status epilepticus, poisoning, and multi-system organ dysfunction in infants and children. Her approach emphasises rapid diagnostic triage and immediate clinical stabilisation to optimise long-term recovery outcomes in the emergency department. Dr. Neha possesses advanced technical expertise in high-acuity bedside procedures, with a specialised focus on navigating difficult cannulation and securing vascular access in critically ill children. Her procedural skillset also includes advanced airway management, point-of-care resuscitation techniques, and invasive monitoring. She collaborates closely with paediatric intensive care, neonatology, anaesthesia, surgery, and other teams to provide seamless emergency care for children with complex medical needs. Beyond clinical practice, Dr. Neha remains actively involved in education, simulation-based training, and professional development programmes. She contributes significantly to paediatric emergency nursing certification programmes, postgraduate academic activities, and simulation workshops designed for doctors and nursing professionals. She also participates in community awareness initiatives focused on recognising and responding to paediatric emergencies, helping improve emergency preparedness among caregivers and the wider community. Fluent in English, Hindi, Marathi, and Kannada, Dr. Neha communicates effectively with families from diverse backgrounds, ensuring clear understanding of emergency situations, treatment plans, and ongoing care requirements. Her commitment to timely intervention and child-centred emergency management has established her among the best paediatric emergency specialists in Old Airport Road.
