

## DR. SHARON COLACO DIAS

HOD & Consultant - Dental Medicine

### Qualification

BDS | MDS

### Overview

Dr. Sharon Colaco Dias is a highly accomplished and respected dentist in the field of Dental Medicine. With her extensive qualifications and expertise, she is the Head of the Department and Consultant in the Department of Dental Medicine at Manipal Hospitals, Old Airport Road, Bangalore. Dr. Colaco Dias holds a BDS (Bachelor of Dental Surgery) degree and an MDS (Master of Dental Surgery) degree, demonstrating her dedication to advancing her knowledge and skills. One of Dr Colaco Dias' notable achievements is her fellowship with the Indian Congress of Oral Implantologists. This recognition showcases her proficiency and specialisation in the field of dental implants. She is also a valued member of the Indian Society of Oral Implantologists and the Indian Prosthodontic Society, demonstrating her commitment to professional growth and staying updated with the latest advancements in dentistry. Dr. Colaco Dias has a diverse range of expertise that spans multiple areas within Dental Medicine. One of her primary areas of focus is dental implants. Dental implants are an innovative solution for replacing missing teeth and restoring oral functionality. With her in-depth knowledge and experience, Dr. Colaco Dias can provide patients with effective and long-lasting implant treatments. Another area of expertise for Dr. Colaco Dias is full-mouth rehabilitation. This specialised field involves the comprehensive restoration and reconstruction of the entire dentition. It is a complex process that requires meticulous planning and execution, and Dr. Colaco Dias has proven herself to be highly skilled in this regard. Her ability to enhance patients' oral health and functionality through full-mouth rehabilitation has garnered recognition among her peers and patients. Dr. Sharon is an acclaimed dentist in Oldairportroad, Bangalore in Bangalore. Dr. Colaco Dias is also known for her proficiency in aesthetic dentistry. She understands the importance of a beautiful smile in boosting self-confidence and well-being. Through various cosmetic dental procedures, such as teeth whitening, veneers, and composite bonding, she helps patients achieve their desired smiles. Her attention to detail and artistic approach to aesthetic dentistry make her a sought-after dentist for smile enhancement. Furthermore, Dr. Colaco Dias specialises in smile correction. She comprehensively assesses patients' dental structures and develops personalised treatment plans to address crooked teeth, malocclusion, and gaps. By employing advanced orthodontic techniques and treatments, she assists patients in achieving harmonious and well-aligned smiles. Dr. Colaco Dias is also an active participant in sharing her knowledge and insights with the broader community. She has delivered talks on various dental topics and has been featured in publications such as "Quick Telecast." One of her notable talks was on the influence of genetic factors on oral health, shedding light on an essential aspect of dental care that is often overlooked. Dr. Sharon Colaco Dias is a highly accomplished and dedicated dental professional. With her extensive qualifications, memberships in esteemed organisations, and areas of expertise, including dental implants, full mouth rehabilitation, aesthetic dentistry, and smile correction, she has positively impacted the lives of numerous patients. Through her linguistic versatility and commitment to knowledge sharing, she has become a trusted and respected figure in Dental Medicine.
