

DR. NEERAJ ARORA

Senior Consultant - Paediatrics & Neonatology

Qualification

MBBS | MD

Overview

Dr. Neeraj Arora, the best Paediatrics & Neonatology in Patiala, has more than 10 years of experience in paediatrics & neonatology. He did his MBBS in 2008 from the University of Kerala and then completed his MD in 2014 from Govt. Medical College & Hospital, Patiala. Dr. Neeraj Arora worked with Fortis Hospital, Mohali, before joining Manipal Hospitals, Patiala. He is a consultant at the Paediatrics & Neonatology department at Manipal Hospital Patiala. Dr. Neeraj Arora is known for his expertise in preterm newborn care. In addition to this, his field of expertise also includes general paediatrics, neonatology, infectious diseases and vaccinations. Dr. Neeraj is highly competent and is known for making accurate diagnoses and providing specialised treatments. He is one of the best paediatricians in Patiala and has many success stories to share. Dr. Neeraj has treated patients from diverse cultural and geographical backgrounds from across the country. He is proficient in Hindi and English and realises the importance of effective and transparent communication between a doctor and a patient. All his patients admire him for his approach which focuses on listening to patients and determining a course of treatment that offers holistic

healing and faster recuperation. In addition to this, Dr. Neeraj actively participates in seminars and events that are about new technological advancements in the medical field, especially paediatrics and neonatology. He is passionate about his work and always aims to incorporate the latest technology to treat patients. Dr. Arora's efforts to keep abreast with the latest developments in the medical field align with Manipal's ideology of being clinically excellent, patient-centric and ethical. Dr. Neeraj Arora also believes in maintaining transparency in all his consultations, which he achieves by educating his patients and addressing all their concerns about the disease and treatment. He also guides his patients in their recovery journey and offers the necessary medical support.
