

DR. TINKU TAKIA

Consultant - Medical Oncology

Qualification

MBBS | MD (Radiation Oncology) | DrNB (Medical Oncology)

Overview

Dr. Tinku Takia is a highly skilled Consultant - Medical Oncology with a comprehensive background in both radiation and medical oncology. He completed his DrNB in Medical Oncology from Artemis Hospitals, Gurugram, in 2025, following an MD in Radiation Oncology from Pt. B.D. Sharma, P.G.I.M.S, Rohtak, Haryana, in 2013, and an MBBS from the same institution in 2005. This extensive academic journey has equipped him with a deep understanding of cancer biology and advanced therapeutic approaches, making him well-versed in the complexities of cancer care. During his recent DrNB training at Artemis Hospitals, Dr. Tinku Takia managed a wide range of solid and hematologic malignancies. His responsibilities included planning and delivering chemotherapy, targeted therapy, immunotherapy, and hormonal therapy. In addition to his clinical work, he actively participated in tumour boards, academic discussions, and departmental research, enhancing his expertise in evidence-based oncology. This experience has honed his skills in personalised cancer treatment, ensuring that patients receive the most effective, patient-centred care. Prior to this, Dr. Tinku Takia worked as a Radiation

Oncologist at a renowned hospital and gained extensive experience in external beam radiotherapy (EBRT) and brachytherapy, collaborating closely with surgical and medical oncology teams to optimise treatment outcomes. His approach integrates precision in radiation therapy with a deep understanding of patient needs, making him a trusted advisor in multidisciplinary cancer care. Dr. Tinku Takia is a member of several esteemed professional bodies, including the Indian Society of Medical and Pediatric Oncology (ISMPO) and the Association of Radiation Oncologists of India (AROI). His key areas of expertise include chemotherapy, immunotherapy, targeted therapy, hormonal therapy, palliative care, and oncological emergency management, reflecting his broad capability in comprehensive cancer treatment.
