

DR. MANPREET SINGH

Consultant - Ophthalmology

Qualification

MBBS | MS (Ophthalmology)

Overview

Dr Manpreet Singh is a highly accomplished Consultant Ophthalmologist with extensive experience in advanced cataract, refractive, and comprehensive eye care. With a strong foundation in modern ophthalmic techniques and a patient-focused approach, he is committed to delivering precise, safe, and outcome-driven visual solutions tailored to individual patient needs. His core areas of expertise include Micro Incision Cataract Surgery (MICS) with IOL implantation using phacoemulsification, Femto Laser Assisted Cataract Surgery, and a wide spectrum of refractive correction procedures. Dr Singh is proficient in performing Femto LASIK (bladeless LASIK), Blade LASIK, Photorefractive Keratectomy (PRK), and corneal lenticule extraction for advanced refractive correction, enabling patients to achieve optimal visual outcomes with minimal recovery time. Dr Singh is well-regarded for his meticulous surgical technique and his ability to manage both routine and complex ophthalmic cases. His expertise extends across comprehensive ophthalmology, allowing him to diagnose and manage a broad range of ocular conditions with accuracy and clinical confidence. He places significant emphasis on detailed

preoperative evaluation, patient education, and post-procedural follow-up to ensure long-term visual stability and patient satisfaction. Academically trained with an MS in Ophthalmology, Dr Singh stays abreast of evolving technologies and evidence-based practices in eye care. He integrates advanced diagnostic tools and state-of-the-art laser platforms into his practice, ensuring high standards of surgical precision and safety. Known for his empathetic communication and ethical practice, Dr Manpreet Singh believes in empowering patients through clear counselling and shared decision-making. His calm demeanour, technical expertise, and commitment to excellence make him a trusted eye care specialist for patients seeking both surgical and non-surgical ophthalmic solutions. In addition, Dr Singh is dedicated to early diagnosis and preventive eye care, with a strong focus on patient safety and visual quality. He actively adopts minimally invasive techniques and personalised treatment plans to enhance surgical outcomes and support long-term ocular health across all age groups.

Field of Expertise
