

DR. ADITYA GUPTA

Consultant - Ophthalmology

Qualification

MBBS | MS (Ophthalmology)

Overview

Dr Aditya Gupta is a skilled Consultant Ophthalmologist with comprehensive experience in cataract surgery, laser procedures, and the management of complex anterior segment and ocular trauma cases. With a strong surgical acumen and a methodical approach to eye care, he is dedicated to restoring and preserving vision through safe and evidence-based practices. Dr Gupta specialises in Micro Incision Cataract Surgery (MICS) with IOL implantation using phacoemulsification and Femto Laser Assisted Cataract Surgery, delivering excellent visual outcomes even in challenging cases. He has significant expertise in managing posterior capsular rupture (PCR) and other intraoperative cataract surgery complications, ensuring optimal patient safety and visual rehabilitation. His clinical skill set includes OGI (Open Globe Injury) repairs, corneal collagen cross-linking (CXL), secondary and scleral-fixated intraocular lenses (SF-IOL), and pterygium surgery. Dr Gupta is also highly proficient in ophthalmic laser procedures, including YAG laser capsulotomy, laser iridotomy (LI), selective laser trabeculoplasty (SLT), and diode laser cyclophotocoagulation (DLCP). As a practitioner of comprehensive

ophthalmology, Dr Gupta manages a wide range of medical and surgical eye conditions, combining clinical precision with thoughtful patient counselling. He is known for his structured diagnostic approach, meticulous surgical planning, and vigilant post-operative monitoring. Academically trained with an MS in Ophthalmology, Dr Gupta remains committed to continuous professional development and the adoption of evolving surgical techniques. His practice reflects a balance of technical expertise, ethical integrity, and compassionate care. Dr Aditya Gupta's ability to handle complex ophthalmic conditions, combined with his patient-centric philosophy, makes him a dependable specialist for both routine eye care and advanced ophthalmic interventions. In addition, Dr Gupta places strong emphasis on patient education, preventive eye care, and long-term visual preservation. He adopts a personalised treatment approach supported by advanced diagnostics and evidence-based protocols, ensuring safe outcomes while maintaining incredibly high standards of surgical excellence across diverse ophthalmic conditions.
