

DR. ANIRBAN ROY

Associate Consultant - Transfusion Medicine

Qualification

MBBS | Diploma in Clinical Pathology

Overview

Dr. Anirban Roy, an Associate Consultant in the Department of Transfusion Medicine at Bhagwan Mahavir Manipal Hospitals, Ranchi, brings extensive expertise in clinical pathology and blood banking. With an MBBS (2005) and a Diploma in Clinical Pathology (2009), Dr. Roy has a strong foundation in diagnostic medicine, transfusion protocols, and blood bank management. His career spans roles as a Consultant Pathologist in both part-time and full-time capacities, where he specialized in hematology, immunohematology, and laboratory diagnostics, ensuring accurate disease diagnosis and effective patient management. As a former Blood Bank Officer, he played a critical role in overseeing blood collection, component separation, quality control, and compliance with transfusion safety regulations. His experience in donor screening, crossmatching, apheresis, and managing blood shortages underscores his proficiency in transfusion medicine. At Bhagwan Mahavir Manipal Hospitals, Dr. Roy focuses on optimizing blood transfusion practices, improving blood storage protocols, and ensuring adherence to national and international transfusion standards. His contributions to transfusion safety, patient blood

management, and evidence-based pathology strengthen the hospital's clinical efficiency.
