

DR. SAURABH TOPPO

Consultant - Anaesthesiology

Qualification

MBBS | MD - Anaesthesia

Overview

Dr. Saurabh Toppo is a Consultant in the Department of Anaesthesiology at Bhagwan Mahavir Manipal Hospitals, Ranchi, with over a decade of clinical experience in delivering safe and effective anaesthesia management across a range of surgical procedures. After completing his MBBS in 2005 and earning an MD in Anaesthesia in 2009, Dr. Toppo has consistently expanded his clinical acumen through specialised training in critical care and emergency response. He is certified in ATLS (Advanced Trauma Life Support), BLS/ACLS (Basic and Advanced Cardiovascular Life Support), and FCCS (Fundamental Critical Care Support), which strengthen his capabilities in managing high-risk and emergency cases within the operating room and ICU settings. At Manipal Hospitals, Ranchi, he plays a pivotal role in multidisciplinary surgical teams, providing anaesthetic support for general surgery, orthopaedics, neurosurgery, cardiothoracic, and emergency trauma cases. With strong proficiency in regional, spinal, and general anaesthesia techniques, Dr. Toppo ensures precision, patient safety, and rapid recovery. His up-to-date certifications and ongoing training align with the highest standards in anaesthesia and

critical care, making him a reliable and competent specialist in managing anaesthesia for complex surgical interventions.
