

DR. VIKRAM SINGH

Senior Consultant - Neurosurgery

Qualification

M.Ch. Neurosurgery (NIMHANS)

Overview

Dr. Vikram Singh, a Senior Consultant in Neurosurgery at Bhagwan Mahavir Manipal Hospitals, Ranchi, is a highly skilled neurosurgeon specializing in advanced brain and spine procedures. With an M.Ch. in Neurosurgery from the prestigious NIMHANS, Dr. Singh brings extensive expertise in endoscopic brain and spine surgery, brain tumor surgery, skull base surgery, brain aneurysm surgery, minimally invasive spine surgery, cerebral hemorrhage management, head trauma, slip disc, and sciatica treatment. His proficiency in minimally invasive techniques ensures faster recovery, reduced complications, and enhanced patient outcomes. Dr. Singh is renowned for his precision in complex neurosurgical procedures, offering cutting-edge solutions for patients with neurological disorders. With years of experience in treating brain tumors, aneurysms, and spine conditions, he adopts a patient-centric approach, utilizing technology and evidence-based practices. His expertise in neuroendoscopy and skull base surgery makes him a sought-after specialist for intricate cases requiring high precision. At Bhagwan Mahavir Manipal Hospitals, he leads advanced neurosurgical interventions, ensuring comprehensive

neurological care. Dr. Singh stays at the forefront of innovation in neurosurgery, continuously updating his skills to provide accurate treatment.
