

DR. SAMIR SAURABH

Consultant – Anaesthesia & Pain Management

Qualification

MBBS | MD (Anaesthesiology) | Fellowship in Advanced Regional Anaesthesia and Perioperative Pain Management | Fellowship in Interventional Pain Management

Overview

Dr. Samir Saurabh is a dedicated Anesthesiologist and Pain Management Consultant based in Ranchi, known for his compassionate approach and commitment to improving patients' quality of life. His career reflects a deep passion for helping individuals overcome pain and regain comfort in their daily lives. With rich experience gained from working in renowned hospitals and private practices, Dr. Samir combines clinical expertise with a strong sense of empathy and patient-centred care. Since May 2022, he has been serving at Parash H.E.C. Hospital. Prior to this, he worked as a Consultant at Medanta Hospital, where he further honed his skills in Pain Management and Anaesthesia. Dr. Samir completed his MD in Anaesthesia from Smt. NHL Medical College, Ahmedabad. He pursued advanced training through fellowships in Interventional Pain Management at Aesculap Pain Academy, Germany and at Delhi Pain Management Centre and in Advanced Regional Anaesthesia & Perioperative Pain Management at Ganga Hospital, Coimbatore. These qualifications enable him to provide highly specialised treatments for conditions such as: Chronic

knee, Shoulder, and back pain, Fibromyalgia, Migraine and trigeminal neuralgia, Arthritis, Cancer pain, and Acute perioperative pain. His expertise spans advanced techniques, including selective nerve root blocks, ozone discectomy, coeliac plexus blocks, PRP therapy, and ketamine infusion. Beyond technical excellence, Dr. Samir is valued for his patient-first approach. He believes that every pain condition is not just a medical case, but a personal journey—and he takes the time to listen, understand, and design tailored treatment plans that bring lasting relief and renewed hope. Aligned with the values of Manipal Hospitals, Dr. Samir is dedicated to delivering care rooted in empathy, respect, and trust. His commitment extends to teaching and mentoring young doctors, reflecting his belief in advancing medical knowledge and nurturing future healthcare leaders.
