

DR. GAGANJOT KAUR

Consultant & HOD - Internal Medicine

Qualification

MBBS | MD (General Medicine)

Overview

Dr. Gaganjot Kaur is a disciplined and confident M.D. Medicine physician who currently serves as a Consultant and HOD in the Internal Medicine department at Bhagwan Mahavir Manipal Hospital in Ranchi. Her professional philosophy centres on strong communication, where she prioritises listening to patient concerns and explaining complex medical information in understandable terms. She is a collaborative practitioner, dedicated to working effectively with all members of the medical team to improve patient outcomes and maximise satisfaction. Her educational foundation includes an M.B.B.S. from the Adesh Institute of Medical Sciences and Research in Bathinda, Punjab (2008–2013), followed by an M.D. in Medicine from the Sri Guru Ram Das Medical College and Hospital in Amritsar, Punjab (2016–2019). Throughout her career, Dr. Kaur has held several significant positions. She served as a Consultant in Internal Medicine at Medanta Hospital, Ranchi, and as a Senior Resident at Dayanand Medical College and Hospital in Ludhiana, where she managed OPDs, emergencies, and the treatment of COVID-19 patients. Previously, she was a Junior Resident at the Sri Guru Ram Das Institute of Medical Sciences, providing care

for acute and chronic conditions such as stroke, ARDS, myocardial infarction, and diabetic ketoacidosis. Earlier in her career, as a Medical Officer at Fortis Hospital, Mohali, she worked in the General ICU and ensured clinical and administrative adherence to healthcare standards. Dr. Kaur has built a strong record of accomplishment, including winning the regional round of the Dr. SD Deodhar All India Intercollegiate Post Graduate Rheumatology Quiz. She has further specialised through certificate courses in "Evidence-Based Diabetes Management" and "Management of Thyroid Disorders." Her academic contributions include presenting a poster on Aortoiliac artery occlusion and a paper on the correlation between serum homocysteine levels and albuminuria in Type 2 Diabetes patients. Additionally, she participated as faculty in the 2nd Jharkhand Hepato-Pancreato-Biliary Endoscopy Summit in 2025. Her professional toolkit is comprehensive, encompassing skills in inpatient care, chronic disease management, diagnostic evaluation, intervention procedures, first aid and CPR, and patient chart management, all supported by a strong work ethic.
