

DR. A NILEKYA NAIDU

Consultant - Internal Medicine

Qualification

MBBS | DNB (General Medicine)

Overview

Dr A Nilekya Naidu Dr Nilekya Naidu is a highly accomplished and dedicated Internal Medicine physician who currently serves as a Consultant at Bhagwan Mahavir Manipal Hospital Ranchi. Widely recognised for her unwavering sincerity and profound passion for healthcare, Dr Naidu has built a sterling reputation rooted in evidence-based, ethical, and compassionate patient care. Her deep-seated dedication to her patients' well-being goes far beyond standard medical treatment; she approaches every case with genuine empathy, meticulous attention to detail, and a commitment to long-term healing. It is this rare blend of clinical excellence and heartfelt humanity that truly makes her the best in her field. This exceptional standard of care is continuously reflected in the glowing reviews and heartfelt feedback she receives from her patients, who frequently praise her comforting conduct, thorough diagnostics, and reliable guidance. Her outstanding clinical reputation is backed by a robust professional foundation and over 5 years of clinical experience across premier tertiary and corporate healthcare settings. Dr Naidu has previously managed high-volume emergency and ICU cases as a Registrar at Manipal Hospital,

Hebbal, Bengaluru; delivered comprehensive preventive and chronic illness management as a Consultant at Akshaya Hospital & Rainbow Health Care, Bengaluru; and directed multidisciplinary care for complex cases at Tata Main Hospital, West Bokaro. Her core clinical interests span vital medical domains, including Endocrinology, Nephrology, and Infectious Diseases. Academically distinguished, Dr Naidu earned her MBBS from Government Medical College, Anantapuramu in 2014 and completed her DNB in General Medicine from SKS Hospital, Salem between 2016 and 2019. An avid researcher, she has contributed to peer-reviewed publications—such as her 2017 study on Hypothyroidism and Diabetes Mellitus in the IJEM—and has earned multiple accolades for her academic presentations, including a first-prize poster on snakebite-induced hypopituitarism and award-winning papers on hyperuricemia and thyroid practices. Enhancing her global patient outreach, she is exceptionally multilingual, effectively communicating in English, Hindi, Telugu, Tamil, Kannada, and Spanish.
