

DR. DIPANNITA MUKHERJEE

Consultant - Anesthesiology

Qualification

MBBS | MD - Anesthesiology

Overview

Dr. Dipannita Mukherjee is a Consultant in Anesthesiology at Manipal Hospital, Rangapani. With an MD in Anesthesiology (2019) and MBBS (2014), Dr. Mukherjee has developed a robust foundation in advanced anesthesia practices, critical care, and pain management, particularly oncology-related procedures. Her expertise spans the entire perioperative spectrum, with specialized training in administering anesthesia for complex surgeries, managing high-risk ICU/ITU patients, and delivering precise, evidence-based pain relief solutions. Dr. Mukherjee is adept at critical care protocols, ensuring favorable outcomes even for severely ill patients with oncological backgrounds, emphasizing her capability in high-pressure, multidisciplinary environments. She is proficient in performing a wide range of invasive procedures, including ultrasound-guided vascular access and regional nerve blocks for both intraoperative anesthesia and post-operative pain management. At Manipal Hospital, Rangapani, she plays a pivotal role in ensuring surgical success, minimizing pain, and accelerating recovery, significantly enhancing the quality of patient outcomes. As a part of one of the region's most reputed healthcare institutions, she

collaborates with surgical teams to deliver tailored anesthetic care plans, optimize perioperative management, and elevate the standard of care for every patient.
