

DR. BHARATHI THASAN

Consultant - Interventional Cardiologist

Qualification

MBBS | MD (Gen. Med) | DM (Cardiology) | FSCAI | FRCP

Overview

Dr. Bharathi Thasan is an experienced interventional cardiologist in Tamil Nadu, currently practising as a Consultant - Interventional Cardiology at Manipal Hospital Salem. With 21+ years of dedicated experience in advanced cardiac care, Dr. Thasan is widely recognised for his exceptional skills in interventional cardiology. He offers specialised treatment for various cardiovascular conditions using minimally invasive techniques that promote faster recovery and improved patient outcomes. His approach combines clinical precision with a deep commitment to patient well-being. Beginning his medical journey with an MBBS from Madurai Medical College, Dr. Thasan obtained further training with an MD in General Medicine from Madras Medical College and a DM in Cardiology from Stanley Medical College, Chennai. He has further honed his expertise through Advanced Training in Complicated Coronary Intervention at the University of Turin, Italy, and Coronary Intervention at ASAN Medical Centre, South Korea. He is a Fellow of the Society for Cardiovascular Angiography and Interventions (FSCAI) and the Royal College of Physicians (FRCP), underscoring his international recognition and commitment to

academic excellence. Dr. Thasan's core competencies lie in performing angiograms - coronary, peripheral, and cerebral and complex angioplasties involving coronary, carotid, and peripheral vessels. His vast experience includes over 12000+ interventional procedures, of which more than 3000+ are coronary angioplasties, with the majority performed through the radial approach. His early adoption of radial access reflects his focus on patient comfort and procedural safety. He has conducted over 800+ primary and rescue angioplasties in emergency settings, where timely intervention can be life-saving. Dr. Thasan also specialises in pacemaker implantations, including single and dual-chamber devices, as well as CRT (Cardiac Resynchronisation Therapy) implantation, which benefits patients with heart failure and electrical conduction disorders. His interventional skill set also extends to balloon valvotomy procedures and congenital heart defect closures, such as atrial septal defect (ASD) and patent ductus arteriosus (PDA) device closures. Beyond interventions, Dr. Thasan is adept at managing complex cardiac cases in outpatient, inpatient, and intensive care settings. Dr. Thasan maintains a strong focus on early diagnosis, prevention, and post-procedure rehabilitation. His active participation in clinical research reflects his forward-thinking approach and dedication to continual improvement in cardiac care. He has contributed to international trials focused on reducing mortality in patients with acute cardiac conditions. Dr. Thasan's excellence is rooted not only in his procedural expertise but also in his patient-centred approach. His ability to explain complex medical conditions in simple terms allows patients and families to feel confident and reassured throughout their cardiac journey. Dr. Bharathi Thasan speaks English and Tamil, enabling him to connect deeply with a diverse range of patients and provide culturally sensitive care.

Field of Expertise

- Angiogram – Coronary, Peripheral & Cerebral

- Complex Angioplasties – Coronary, Peripheral & Carotid
- Primary coronary Angioplasties
- Pacemaker Implementation
- CRT Implantation
- Congenital Interventions
- Balloon Valvotomy

Languages Spoken

- English
- Tamil

Awards & Achievements

- Former professor of cardiology, Vinayaka mission medical college, Salem
- Professor of cardiology, Sri Ramachandra medical college, Chennai
