

DR. N. SREEPRATHI

Consultant - Obstetrics And Gynaecology

Qualification

MBBS | M.S (OG)

Overview

Dr. N. Sreeprathi is a highly dedicated obstetrician and gynaecologist in Salem. She is currently practising as a Consultant – Obstetrics and Gynaecology at Manipal Hospital Salem. With over five years of active clinical experience spanning academic medicine and complex surgical care, Dr. Sreeprathi has established herself as a trusted specialist in comprehensive women's health, high-risk pregnancy management, and minimally invasive interventions. Her expertise in maternal care and complex pregnancy management has established her among the best gynaecologists in Salem for comprehensive women’s healthcare services. Dr. Sreeprathi completed her MBBS from KAPV Vishwanathan Government Medical College, Trichy, followed by an MS in Obstetrics and Gynaecology from Government Mohan Kumaramangalam Medical College and Hospital, Salem. She further strengthened her surgical expertise by obtaining a Fellowship in Minimal Access Surgery (FMAS) and is currently pursuing a Fellowship in Reproductive Medicine (FRM) to enhance her expertise in fertility and reproductive healthcare. At Manipal Hospital, Dr. Sreeprathi’s clinical focus encompasses advanced obstetric care, high-risk pregnancy management, and specialised

gynaecological care. She has extensive experience handling complex maternal conditions, including hypertensive disorders of pregnancy, gestational diabetes, and multi-system complications during gestation. Her clinical approach balances maternal-foetal safety with personalised birthing strategies, supported by rigorous pre-operative planning and continuous antenatal screening. Dr. Sreeprathi's surgical and procedural expertise extends to a broad range of open and laparoscopic gynaecological procedures. She routinely manages benign uterine pathologies, ovarian cysts, and reproductive tract conditions while utilising minimal access techniques to minimise recovery times and maintain functional anatomical integrity. She balances clinical precision with empathetic patient counselling, ensuring women and their families are deeply informed and empowered throughout their healthcare journeys. Alongside her clinical work, Dr. Sreeprathi has remained actively involved in academics and teaching. She previously served as an Assistant Professor at Government Mohan Kumaramangalam Medical College and Hospital, contributing to undergraduate and postgraduate medical education. She has also contributed to medical literature through research, including her publication on Hypertensive Disorders of Pregnancy and Maternal Outcomes in the International Journal of Reproduction, Contraception, Obstetrics and Gynaecology (IJRCOG). Fluent in multiple patient communication settings and recognised for her compassionate approach, Dr. Sreeprathi focuses on delivering personalised care while ensuring comfort, guidance, and informed decision-making throughout every stage of a woman's healthcare journey.
