

DR. K. SYED ABDUL KHADAR

Consultant - Interventional Cardiologist

Qualification

MBBS | MD (GEN. MED) | DNB (Cardiology)

Overview

Dr. K. Syed Abdul Khadar is an experienced interventional cardiologist in Tamil Nadu. He is currently practising as a Consultant - Interventional Cardiology at Manipal Hospital Salem. With 21+ years of total expertise and 10+ years as a specialist in interventional cardiology, Dr. Khadar specialises in treating complex and high-risk cardiovascular conditions. His clinical acumen, technical precision, and patient-first approach have made him a trusted name in cardiac care. He focuses on delivering evidence-based, minimally invasive treatments that offer optimal outcomes and quicker recovery. Dr. Khadar holds an MBBS, MD in General Medicine, and DNB in Cardiology. He has enhanced his expertise through certifications from global institutions, including advanced training in Diastology Echocardiograpy from the Cleveland Clinic, USA. He is a respected member of the Cardiological Society of India and the National Interventional Council, actively engaged with the latest developments in cardiology. Dr. Khadar excels in managing a wide range of cardiac emergencies such as acute myocardial infarction, cardiogenic shock, pulmonary oedema, ventricular arrhythmias, cardiac tamponade, and

infective endocarditis. His core expertise lies in complex angioplasty, particularly in managing chronic total occlusions (CTOs), where conventional angioplasty techniques often fail. He skilfully performs high-risk coronary interventions with cutting-edge technologies and imaging modalities. His proficiency also includes balloon mitral valvotomy for patients with rheumatic mitral stenosis and the implantation of pacemakers for rhythm management in bradyarrhythmias and conduction blocks. In non-invasive cardiology, Dr. Khadar independently performs transthoracic and transesophageal echocardiography (TTE/TEE), carotid and peripheral Doppler studies, ECG interpretation, Holter monitoring, and treadmill stress tests. His meticulous assessments guide accurate diagnosis and help craft personalised treatment plans for each patient. Dr. Khadar's experience also includes leading critical cardiac care units, conducting emergency procedures, and stabilising patients in life-threatening cardiac events with confidence and speed. In invasive diagnostics, Dr. K. Syed Abdul Khadar has independently performed over 1500+ coronary angiograms and temporary pacemaker insertions while assisting in 1000s of angioplasties and pacemaker implantations. His capabilities also include right heart catheterisations, central venous line placements, and arterial line management, ensuring comprehensive cardiac care from diagnosis to intervention. Known for his calm demeanour, clarity in communication, and sincere concern for patients, Dr. Khadar is known as a top cardiologist in Salem. Dr. Khadar remains deeply involved in clinical research and medical education. He regularly delivers talks on heart health, preventive cardiology, and seasonal impacts on cardiac events. His participation in cardiology panel discussions and clinical trials demonstrates his commitment to advancing patient care through research and knowledge dissemination. Dr. Khadar speaks English, Tamil, Hindi, and Urdu, which allows him to connect deeply with patients from diverse linguistic backgrounds.

Fellowship & Membership

- Cardiological Society Of India
- National Interventional Council

Field of Expertise

- Complex Angioplasties
- CTO Interventions
- Permanent Pacemakers
- Balloon Mitral Valvotomy

Languages Spoken

- English
- Tamil
- Hindi
- Urdu

Awards & Achievements

- BLS Instructor 2001-2004 Madras Medical College
- Diastology Echocardiograpy certified by Cleveland Clinic - USA
