

DR. ARINDAM GANGULY

Senior Cosultant - Orthopaedics

Qualification

MBBS | FRCS

Overview

Dr. Arindam Ganguly is a distinguished Orthopaedic and Joint Replacement Surgeon with over 28 years of clinical and surgical experience in India and the UK. A graduate of Calcutta National Medical College (MBBS, 1996), he further pursued a DNB from the National Board of Examination, New Delhi, and earned the prestigious FRCS from the Royal College of Surgeons, England (1998). Dr. Ganguly has held key positions at renowned institutions. His extensive exposure to both Indian and international medical systems has shaped his expertise in complex orthopaedic procedures and joint replacement surgeries. He is the best Orthopaedic Doctor in Kolkata. Dr. Arindam Ganguly specialises in hip and knee joint replacements, shoulder and elbow surgeries, sports injury treatments, and ligament reconstruction. He is also adept at procedures such as fracture fixation, arthroscopy, bone plating, long bone nailing, and ankle fracture repairs. His areas of special interest include joint reconstruction, amputation, cartilage repair, and joint fusion, where he consistently delivers optimal clinical outcomes. A multilingual practitioner fluent in English, Bengali, and Hindi, Dr. Ganguly ensures seamless communication and personalised

care for patients from diverse backgrounds. His compassionate approach and meticulous surgical technique have earned him a strong reputation across Kolkata and beyond. An active member of professional bodies such as the West Bengal Medical Council (WBMC), West Bengal Orthopaedic Association (WBOA & WBAS), and the Indian Orthopaedic Association, Dr. Ganguly is deeply committed to continuous learning and contributing to advancements in orthopaedic medicine. Widely recognised for his clinical acumen and dedication to patient care, he has performed numerous successful surgeries, including bunionectomies, hammer toe repairs, and cartilage resurfacing procedures. Dr. Ganguly continues to be a leading name in the field, known for restoring mobility and improving the quality of life for his patients. He treats every patient with compassion and care and ensures that they get the highest level of care.
