

DR. KAUSHIK DAS

Senior Consultant - ENT Head & Neck Surgeon

Qualification

MBBS(NBU) | MS | DNB | MNAMS

Overview

Dr. Kaushik Das serves as a top Ent specialist in Kolkata, associated with the ENT Department and Head and Neck Surgery at Manipal Hospitals, Saltlake. His extensive qualifications and a rich reservoir of experience make him a renowned name. He secured a high rank as a seasoned Otorhinolaryngologist dedicated to providing exceptional patient care with 34 years in the medical domain, including a focused tenure of 21 years specialising in ENT. Dr. Das holds an MBBS from N.B.M.C., North Bengal University, Darjeeling, followed by an MS in Otorhinolaryngology from NRSMC, Calcutta University. Building upon these foundations, he pursued further qualifications, obtaining a D.N.B. and a Barbara Mathieson Fellowship from Radcliffe Infirmary, Oxford, UK. His pursuit of excellence continued with an MNAMS (ENT) from the esteemed National Academy of Medical Sciences. Dr. Das's professional trajectory shines with impactful roles in renowned healthcare institutions in Kolkata. These experiences honed his skills in intricate procedures like Ear and Larynx Microsurgery, Laser Surgery, and FESS (Functional Endoscopic Sinus Surgery). Over the years, Dr. Das has cemented a reputation as a compassionate and reliable

practitioner, prioritising unwavering commitment to patient well-being. His amalgamation of extensive qualifications and nuanced understanding of ENT equips him to deliver comprehensive care. Additionally, he's a distinguished member of the Indian Academy of Otorhinolaryngology, Head and Neck Surgery (IAOHNS), contributing a wealth of expertise to his field. Specialising in Sleep Apnea and Phonosurgery, Dr. Kaushik Das demonstrates a steadfast dedication to treating various conditions concerning the ear, nose, throat, and related structures. His expertise extends to advanced procedures, ensuring patients receive cutting-edge treatments with precision and care. His approach revolves around compassionate care integrated with the latest medical advancements, resulting in personalised treatment plans tailored to individual needs.
