

DR. ARIJIT GHOSH

Consultant - Interventional Cardiology

Qualification

MBBS | MD (General Medicine) | DM (Cardiology)

Overview

Dr. Arijit Ghosh is a distinguished cardiologist at the Department of Cardiology, Manipal Hospitals, Saltlake, Kolkata, with over 22 years of extensive experience in the field. He is dedicated to delivering exceptional cardiac care, ensuring accurate diagnosis and advanced treatment for a broad spectrum of heart conditions. His medical journey began in 2001 with an MBBS from B.S. Medical College, Bankura, followed by an MD in General Medicine from IPGMR & SSKM Hospital, Kolkata in 2007. To further refine his expertise, he completed his DM in Cardiology from the West Bengal University of Health Sciences in 2013. Today, he is widely regarded as one of the leading heart specialists in Kolkata. Dr. Ghosh’s clinical expertise spans key domains such as Interventional Cardiology, Heart Failure Management, and Clinical & Preventive Cardiology. He is skilled in performing complex procedures including Primary Angioplasty, Complex Coronary Interventions, Peripheral Angioplasty, IFR/IVUS-guided Angioplasty, Pacemaker Therapy, ICD/CRT Implantation, Foetal Echocardiography, Coronary and Peripheral Angiography, and management of Atherosclerosis. He is also proficient in advanced surgical interventions

such as Heart Valve Replacement and complex Heart Transplant-related procedures, ensuring high success rates with minimal complications. His work within the Cath Lab reflects a commitment to embracing innovation and leveraging cutting-edge technology to enhance patient outcomes. Fluent in Hindi, Bengali, and English, Dr. Ghosh communicates effortlessly with patients from diverse backgrounds, helping build trust, clarity, and comfort throughout the treatment journey. With a patient-first approach, Dr. Arijit Ghosh consistently strives to offer compassionate, evidence-based, and personalised cardiac care. He believes in early intervention, continuous monitoring, and long-term disease management to improve patient outcomes. He remains deeply involved in academic activities, clinical updates, and advanced training, ensuring his patients benefit from the latest developments in cardiovascular medicine. His commitment to medical excellence and ethical practice has earned him immense respect from patients, peers, and the larger medical community.
