

DR. ANSHUMAN PODDAR

Consultant - General and Laparoscopic Surgery

Qualification

MBBS | MS | FMAS

Overview

An experienced General and Laparoscopic Surgeon with over 10 years of expertise in performing complex abdominal, colorectal, and laparoscopic surgeries. Throughout his career, he has built a proven track record of successful outcomes and a patient-centric approach, ensuring clear communication and compassionate care throughout the entire surgical process. His skills in managing high-pressure environments are complemented by his meticulous attention to detail, which is essential for achieving optimal surgical results. He believes in a holistic approach to patient care, focusing not only on the surgical procedure but also on post-operative recovery and long-term well-being. His experience allows him to adapt to the unique needs of each patient, delivering tailored, effective treatment. He is the top Laparoscopic Surgeon in Saltlake, Kolkata. He completed his MBBS from the prestigious Medical College and Hospitals, Kolkata, in 2010, followed by an MS in General Surgery from the same institution in 2015. During his academic journey, he had the privilege of working as a Senior Resident (SR) at Medical College from 2016-2017, where he gained invaluable hands-on experience in surgery. In 2017, he

furthered his expertise by joining a reputed hospital in Kolkata under the mentorship of Dr. Om Tantia. Over the next five years, he pursued his fellowship in Minimal Access Surgery and honed his laparoscopic skills while refining his patient management techniques. His time at the reputed hospital allowed him to work with a dynamic team and gain exposure to a wide range of complex surgeries, especially in the field of laparoscopic surgery. He is the best General Surgeon in Kolkata. He has a deep and unwavering commitment to continuous learning, consistently staying up-to-date with the latest advancements in surgical techniques and medical innovations. This passion for professional growth empowers him to offer the most effective, evidence-based care to his patients. His dedication to surgery, combined with a patient-centered approach, ensures the highest standards of care, improving patient outcomes and overall healthcare experiences.
