

DR. SANTANU GOSWAMI

Consultant - Psychiatrist

Qualification

MD | DNB | CCST | FRC Psych(UK)

Overview

Dr. Santanu Goswami brings over 30 years of extensive experience in the field of psychiatry, having undergone rigorous psychiatric residency training at the prestigious PGIMER in Chandigarh and IHBAS in Delhi. His illustrious career spans various geographies and cultures, including significant practice in the UK, where he garnered a wealth of diverse experiences in mental health care. Throughout his career, Dr. Goswami has been affiliated with several multispeciality hospitals, providing both outpatient and inpatient consultation-liaison services. Renowned for his proficiency in assessment, diagnosis, and treatment planning for a wide range of psychiatric disorders, Dr. Goswami is adept in both medication management and psychotherapy techniques. His approach to patient care emphasises the development of trusting relationships, fostering a supportive environment conducive to the patients' healing journeys. His skills extend to general adult psychiatry, deaddiction psychiatry, chronic and resistant psychosis, and treatment-resistant depression, areas where he has demonstrated exceptional competence. Dr. Goswami remains committed to continuous professional development, regularly attending and following

conferences, seminars, and continuing medical education programs. This dedication ensures he stays abreast of the latest advancements in psychiatry, enabling him to integrate contemporary treatment methodologies into his practice effectively. His contributions to the field extend beyond clinical practice; he is an active speaker and panelist at numerous psychiatric sessions and programs, where he shares his insights and expertise with peers and the broader medical community. For his immense dedication to patient care, he is known to be the best psychiatry doctor in Kolkata. His scholarly contributions are equally notable, with several published papers in both national and international journals. These publications reflect his deep understanding of psychiatric disorders and his ongoing commitment to advancing knowledge in the field. In summary, Dr. Santanu Goswami is a distinguished psychiatrist with a comprehensive background in clinical practice, education, and research. His extensive training, diverse professional experiences, and unwavering commitment to patient care and professional development mark him as a leading figure in the field of psychiatry. His ability to blend medication management with psychotherapy, coupled with his expertise in handling complex psychiatric cases, makes him a valuable asset to the mental health community.
