Overview

Dr. Rabin Chakraborty is a Senior Consultant in the Department of Cardiology at Manipal Hospitals, Saltlake, Kolkata, with a distinguished career of over three decades in Interventional Cardiology, Electrophysiology, and Structural Heart Interventions. A Gold Medalist and Board-Certified Physician Cardiologist, Dr. Chakraborty holds an exceptional academic and professional portfolio, including MBBS (Honours), MD (PGIMER, Chandigarh), DNB, MRCP, FRCP (London, Glasgow, Ireland), FACC (USA), FCSI, FICC, FICP, FISE, and DM (Cardiology, PGIMER, Chandigarh). He is widely respected across India and South Asia for his expertise in managing complex cardiovascular diseases, ranging from heart rhythm disorders to advanced coronary and structural heart interventions. His clinical proficiency covers a broad spectrum of cardiac procedures, including Angiography, simple and complex Angioplasty, Electrophysiology Studies, Radiofrequency Ablation, Pacemaker Implantations, ICD & CRT Implantations, and advanced Structural Heart Interventions such as Balloon Mitral Valvuloplasty, TAVR, ASD/VSD/PDA Device Closure, and Coarctoplasty. Over the course of his career, he has performed more than 2500

Angioplasties across the UK, Hyderabad, and Kolkata, over 500 Electrophysiology Studies, more than 1000 Pacemaker Implantations, and over 300 ICD & CRT procedures. His role as a Proctor for Advanced Cardiovascular Procedures has positioned him as a leading mentor in Electrophysiology, Device Implantations, and Complex Coronary Angioplasty, delivering live demonstrations at prominent national and international forums. Dr. Chakraborty has received multiple accolades for his contributions to the field of medicine, including the prestigious Rashtriya Ratna Shiromani Award (2003) and the Gold Medal for Man of the Year in Medicine and Science (2003). His key areas of expertise include Coronary Interventions, TAVI/LAAC/Device Closure, Structural Heart Interventions, Cardiac Device Specialization, CHIP Interventions, and advanced Endovascular Procedures such as EVAR and TVAR, long with a strong focus on comprehensive arrhythmia management, complex revascularisation strategies, heart failure device therapies, and pioneering minimally invasive solutions that significantly enhance long-term cardiovascular outcomes for patients.
