

DR. SHIBSANKAR SARKAR

Consultant - Department of Cardiology

Qualification

MBBS | MD (General Medicine) | DM (Cardiology)

Overview

Dr. Shibsankar Sarkar is a consultant at the Department of Cardiology at Manipal Hospital Salt Lake. With qualifications such as MBBS, MD (General Medicine), and DM (Cardiology), Dr. Shibsankar Sarkar specialises in the comprehensive diagnosis, treatment and management of cardiovascular diseases. Dr. Sarkar completed his MBBS from the Regional Institute of Medical Sciences, Imphal, followed by an MD in General Medicine from R.N.T. Medical College & Hospital, Udaipur. He further pursued his DM in Cardiology from the prestigious R.G. Kar Medical College & Hospital, Kolkata, where he also served as a Post-DM Senior Resident, gaining extensive experience in managing complex cardiovascular conditions and emergency cardiac cases. His core areas of expertise include coronary angiography, coronary angioplasty, cardiac catheterization, pacemaker implantation, and the management of acute coronary syndromes, heart failure, arrhythmias, hypertension, and structural heart diseases. Dr. Sarkar is also proficient in interpreting advanced cardiac diagnostic investigations, including echocardiography, stress testing, and other non-invasive and invasive cardiovascular assessments, enabling accurate diagnosis and

personalized treatment planning. Known for his meticulous clinical judgment and patient-first philosophy, Dr. Sarkar believes in establishing strong doctor-patient relationships through transparent communication, empathy, and individualized treatment strategies. His collaborative approach allows him to work seamlessly with multidisciplinary healthcare teams to ensure optimal patient outcomes while maintaining the highest standards of safety and quality in cardiac care. Apart from his clinical practice, Dr. Sarkar has made significant academic contributions through multiple research publications in reputed medical journals. His work encompasses important topics such as cardio-oncology, COVID-19-related cardiovascular complications, pulmonary embolism, infiltrating cardiomyopathy, and rare cardiac pathologies, reflecting his dedication to advancing cardiovascular science and improving patient care. He actively keeps himself updated with evolving technologies and innovations in interventional cardiology through continuous medical education and research. With a combination of advanced interventional expertise, academic excellence, and an unwavering commitment to compassionate healthcare, Dr. Shibsankar Sarkar continues to provide comprehensive cardiac care, helping patients achieve better heart health and an improved quality of life through timely diagnosis, advanced treatment, and preventive cardiovascular care.
