

DR. MANOHAR BHADRAPPA

Senior Consultant - Chief of Urology Renal transplant surgeon & Uro Oncology surgeon

Qualification

MCH (UROLOGY) | MS (GENERAL SURGERY) | M.B.B.S

Overview

Dr. Manohar Bhadrappa is a distinguished urologist and kidney transplant surgeon, currently serving as a Senior Consultant in Urology and Renal Transplantation at Manipal Hospitals, Sarjapur Road, Bengaluru. With over 20 years of experience and having performed over 15,000 surgeries, 500 transplants, and 100 International surgeries, he is celebrated for his expertise in managing complex urological cases and delivering advanced patient care with precision and compassion. Dr. Manohar completed his MBBS from Dr. B. R. Ambedkar Medical College, Bangalore, followed by an MS in General Surgery from J.J. Medical College, Davanagere. He further specialized in urology, earning his M.Ch. from the Institute of NephroUrology at Bangalore Medical College. His stellar academic foundation and clinical training have established him as a leading figure in his field. Dr. Manohar’s expertise spans a wide range of urological conditions, including pediatric urology, stone management, prostate disorders, and bladder-related issues. He is proficient in minimally invasive procedures such as TURBT, PCNL, laser prostatectomy, URSL, RIRS and urethral stricture repairs, ensuring optimal outcomes with minimal

recovery time. His deep understanding of urological health enables him to offer comprehensive, cutting-edge treatments tailored to individual patient needs. In the realm of endourology, Dr. Manohar is recognised for his proficiency in laser endourology techniques, utilising advanced Holmium and Thulium lasers to address conditions related to prostates and complex kidney stones. These minimally invasive approaches not only enhance precision but also prioritise patient comfort and faster recovery. Dr. Manohar's reputation as a leading renal transplant surgeon in Sarjapur Road is built on his expertise in performing paediatric kidney transplants, double or triple-vessel kidney transplants, ABO-incompatible transplants, and swap kidney transplants. His work in the field of transplantation demonstrates his dedication to improving the lives of patients with chronic kidney disease through innovative surgical techniques and compassionate care. In addition to his clinical accomplishments, Dr. Manohar has contributed to medical research with publications in esteemed journals, showcasing his commitment to advancing urological science and improving treatment outcomes. Known for his patient-centric approach, he ensures clear communication and empathetic care, fostering trust and confidence among patients and their families. Dr. Manohar Bhadrappa continues to redefine excellence in urology and renal transplantation, setting benchmarks in the field with his technical precision, dedication to quality, and unwavering focus on improving patient lives.
