

DR. MADHAVI NAIR

Consultant - Surgical Oncology

Qualification

MBBS | MS - General Surgery | DNB Surgical Oncology

Overview

Dr. Madhavi Nair is a highly skilled and experienced surgical oncologist practicing as Consultant - Surgical Oncology Manipal Hospital Sarjapur Road, Bangalore. She is a prominent female surgeon who brings extensive expertise in diagnosing and treating various cancers with a comprehensive and patient-focused approach. Her proficiency in oncology, combined with a deep commitment to excellence, makes her a leading expert in cancer care in the region. She is a leading surgical oncologist in Sarjapur Road. Dr. Madhavi completed her MBBS and MS in General Surgery from Bangalore Medical College and Research Institute (BMCRI). She further specialized in Surgical Oncology, earning a DNB and receiving the prestigious President's Gold Medal at the national level for her outstanding performance. Additionally, she holds an MBA in Hospital Management from BITS Pilani, which equips her with essential skills in healthcare administration and patient-centric service delivery. With a decade of experience in oncology, Dr. Madhavi has developed specialized surgical expertise in treating various cancers, including head and neck, gastrointestinal, and breast cancers. She is an expert breast surgeon who is proficient in minimally invasive

and robotic-assisted surgeries, ensuring precise and patient-friendly interventions. Her multidisciplinary approach integrates surgery, chemotherapy, and supportive care to optimize treatment outcomes. Beyond her surgical expertise, Dr. Madhavi prioritizes patient education and emotional well-being. As a dedicated female surgeon for female cancer, she ensures that patients and their families are well-informed about treatment options, fostering trust and confidence in their care journey. She actively advocates for early detection programs, particularly in breast cancer screening, emphasizing the importance of preventive care. Fluent in English, Kannada, and Hindi, Dr. Madhavi effectively communicates with a diverse patient base, enhancing accessibility and personalized care.
