

## **DR. V H ASHWATH VENKATARAMANA**

Associate Consultant - Urologist

### **Qualification**

MBBS | MS (General surgery) | MRCS (Edinburgh) | MCh (Urology)

### **Overview**

Dr. V H Ashwath is an accomplished urologist based in Bangalore, with over 10 years of experience in medical and surgical practice. He is currently practising as an Associate Consultant Urologist at Manipal Hospitals-Sarjapur Road, Bengaluru, offering advanced care in endourology, laparoscopy, and open urological surgeries. Dr. Ashwath has a robust academic background, having completed his MCh in Urology from the prestigious Institute of Nephro-Urology, Bangalore, along with an MBBS and MS in General Surgery from renowned institutions. He also holds membership with the Royal College of Surgeons (Edinburgh). Dr. Ashwath specialises in treating complex urological conditions, with expertise in procedures such as PCNL, TURP, ureteroscopy, nephrectomy, pyeloplasty, ureteric reimplantation, and renal transplantation. His clinical acumen extends across urologic oncology, emergency care, and transplant medicine, where he has actively participated in multidisciplinary tumour boards and transplant planning. A passionate academician and researcher, Dr. Ashwath has authored several publications and received accolades for his innovative surgical technique— “Lacing Dermatraction Suturing

Technique”—which won national recognition. He has been a regular presenter at major conferences like ASICON, SUZICON, and USICON and was awarded the USI Travelling Fellowship in 2025 for academic excellence. Beyond surgery, Dr. Ashwath is a proactive contributor to medical education and institutional growth. He has organised workshops in female urology and vascular surgery, led academic conferences like KUACON 2024, and mentored junior residents in surgical training. His research contributions include NABH audits, registry data management, and biostatistical analysis. Dr. Ashwath’s approach to care is rooted in evidence-based practice, surgical precision, and patient-centred treatment. Fluent in English, Hindi, Kannada, and Tamil, he ensures clear communication and empathetic care for patients from diverse backgrounds.
