

## **DR. MANAS RANJAN TRIPATHY**

Senior Consultant - General and Minimal Access Surgery

### **Qualification**

MBBS | MS (General Surgery) | FIAGES (Minimal access surgery)

### **Overview**

Dr. Manas Ranjan Tripathy (MBBS MS (General Surgery) FIAGES (Minimal Access Surgery) Fellowship in Advanced LASER Proctology) is a very well-known expert in the field of Minimal Access Surgery and Laser Proctology in Sarjapur Road, Bengaluru. With a cumulative 15+ years of specialist expertise in the field, Dr. Manas brings along with him comprehensive patient care and excellent surgical outcomes. After completing his masters in General Surgery from the prestigious Medical College in Sambalpur, Odisha, 15 years back, Dr Manas has undergone expert training in General Surgery, Minimal Access Surgery, Bariatric Surgery and Laser Proctological procedures. Dr Tripathy has occupied several important positions in the department of Minimal Access Surgery at the renowned Hospitals, Bannerghatta Road (Bangalore), from 2011 till 2025. Dr Manas routinely performs laparoscopic (keyhole) and mini laparoscopic (mini port ) surgeries for gall bladder removal, appendix, various types of abdominal hernias and reflux disorders and has successfully performed more than 1600 Laparoscopic surgeries with excellent clinical outcomes. His special area of interest is SINGLE INCISION LAPAROSCOPIC SURGERY, Complex

& recurrent abdominal wall Hernia surgeries with abdominal wall reconstruction. Dr. Tripathy has also excelled in the field of Laser proctological procedures for the cure of haemorrhoids, complex anal fistulas, fissures (more than 2000 procedures) and regularly performs advanced minimally invasive procedures for fistula-like FILAC, LIFT and DLPL with very minimal surgical wounds and fast recovery. He has specialised training and routinely performs minimally invasive procedures of pilonidal sinus, like Endoscopic sinus Excision and Laser Pilonidal Sinus Excision. Keeping up pace with the latest advancements in surgical techniques and technologies is a very important aspect of modern tertiary health care, and Dr. Manas is committed towards various modern trainings and updated surgical approaches, all of which ensure that his patients receive the best of standards in minimally invasive surgical care, making both recovery and return to work more holistic, pleasurable and faster.
