

DR. ANISHA UMASHANKAR

Associate Consultant - Medical Oncology

Qualification

MBBS | MD (Internal Medicine) | DNB (Medical Oncology)

Overview

Dr. Anisha Umashankar is a Medical Oncologist with training in both Internal Medicine and Medical Oncology from leading tertiary-care institutions of India. She completed her DrNB in Medical Oncology at Manipal Hospital, Bengaluru, where she gained extensive experience in the management of solid tumours and haematological malignancies, including the use of modern systemic therapies and immunotherapy. With a strong foundation in Internal Medicine from Kasturba Medical College, Manipal, Dr. Anisha brings a holistic and patient-centric approach to cancer care. Her clinical expertise includes outpatient and inpatient oncology management, chemotherapy planning, toxicity monitoring, supportive oncology, and palliative care integration. She has also been actively involved in multidisciplinary tumour boards and clinical research initiatives. Dr. Anisha has contributed to research publications and national and international oncology conferences, including presentations at ESMO Asia, ICON, and other reputed scientific forums. Her work has focused on real-world oncology outcomes, immunotherapy, lung cancer, gastrointestinal cancers, and haematological malignancies. She is particularly passionate about

preventive oncology and cancer screening programs, with an emphasis on early detection, patient education, and evidence-based care. Known for her compassionate communication style and strong interpersonal skills, she believes in guiding patients and families through treatment decisions with clarity and empathy.
