

DR. PANKAJ KUMAR

Consultant - Orthopaedics

Qualification

MS Orthopaedics

Overview

Dr. Pankaj Kumar, a Consultant in Orthopaedics at Manipal Hospital, Siliguri, brings over 15 years of robust clinical experience and surgical expertise in the field of Orthopaedics and Joint replacement. A graduate in MBBS (1997) with an MS in Orthopaedics (2004), Dr. Kumar is widely recognised for his holistic approach to musculoskeletal care, catering to patients across all age groups with acute and chronic orthopaedic conditions. He specialises in advanced joint replacement surgeries, offering cutting-edge solutions for knee, hip, and shoulder replacements that restore mobility and improve quality of life. Dr. Kumar is also a pioneer in minimally invasive arthroscopic surgeries, commonly referred to as keyhole surgeries, enabling quicker recovery and reduced postoperative complications. His proficiency in sports medicine ensures tailored treatment for athletes and active individuals dealing with ligament tears, meniscus injuries, and joint instability. In paediatric orthopaedics, Dr. Kumar provides compassionate and precise care for congenital and developmental deformities, helping children achieve better mobility and function. He is also skilled in deformity correction procedures and tumour surgery with

reconstructive solutions that preserve limb function and aesthetics. Additionally, his experience extends to the management of complex spinal disorders, offering both surgical and non-surgical treatments for disc problems, spinal stenosis, scoliosis, and vertebral trauma.
