

DR. ZIAUL MUSTAFA

Associate Consultant - Radiology & Imaging

Qualification

MBBS | MD(Radiodiagnosis)

Overview

Dr. Ziaul Mustafa, Associate Consultant in Radiology & Imaging at Manipal Hospital, Siliguri, is a Radiologist with a strong foundation in diagnostic imaging and a commitment to excellence in patient care. Holding an MD in Radiodiagnosis, Dr. Mustafa brings extensive expertise in interpreting a wide spectrum of medical imaging modalities, including X-rays, MRIs, CT scans, ultrasounds, and PET scans. His keen diagnostic acumen and precision in reading complex images support early disease detection, accurate diagnosis, and personalized treatment strategies, significantly improving patient outcomes. His proficiency in oncology imaging plays a critical role in cancer detection, staging, and monitoring, using advanced imaging techniques to guide clinical decisions and treatment response assessments. In neuroimaging, he specializes in evaluating brain and spinal cord abnormalities, including strokes, tumors, and infections, ensuring swift and targeted interventions. His expertise in cardiovascular imaging aids in diagnosing heart conditions through detailed scans of the heart and blood vessels, while his work in musculoskeletal imaging facilitates the evaluation of joint disorders,

fractures, arthritis, and soft tissue injuries. Dr. Mustafa is also skilled in interventional radiology, performing minimally invasive, image-guided procedures such as angioplasty, biopsies, and catheter placements, thereby reducing patient recovery time and procedural risks.
