

DR. UJJAL CHATTERJEE

Senior Consultant - Neonatology and Paediatrics

Qualification

MBBS and DCH (Diploma in Child Health)

Overview

Dr. Ujjal Chatterjee, Senior Consultant in Paediatrics & Neontaology at Manipal Hospital, Siliguri, brings over four decades of clinical experience in child health and paediatric care. An alumnus of the M.B.B.S batch of 1979 and a Diploma in Child Health (D.C.H) holder since 1983, Dr. Chatterjee has established a solid reputation for his expertise in growth monitoring, child growth management, and comprehensive care of childhood diseases. He is known for his focused approach in treating paediatric conditions such as pneumonia, viral fevers, measles, and other common childhood infections. Dr. Chatterjee also specializes in routine and critical child vaccination, ensuring timely immunization as per national and international paediatric guidelines. His evidence-based medical practice addresses a wide spectrum of child health concerns with particular attention to early detection and intervention in developmental issues. Actively involved in medical associations, Dr. Chatterjee is a Life Member of the Indian Academy of Pediatrics (IAP), the Siliguri Academy of Pediatrics, and the Red Cross Society, reflecting his continued commitment to professional development and public health service.

With a clinical approach rooted in decades of practical knowledge and consistent patient care, Dr. Ujjal Chatterjee remains a trusted name in paediatrics in North Bengal, offering reliable, preventive, and therapeutic solutions for infants, children, and adolescents.
