

DR. SOMSUBHRA PAL

Consultant - Orthopaedic Surgeon

Qualification

MBBS | DNB (Orthopaedics)

Overview

Dr. Somsubhra Pal is an experienced Orthopaedic Surgeon currently associated with Manipal Hospitals, Siliguri. With over a decade of experience in orthopaedics and trauma care, he is dedicated to providing comprehensive treatment for a wide range of musculoskeletal conditions affecting the bones, joints, ligaments, tendons, and muscles. He completed his MBBS from Kolkata Medical College and later pursued DNB in Orthopaedics from Bhattacharyya Orthopaedics and Related Research Centre (BORRC), Kolkata. To further enhance his expertise, he completed a Fellowship in Diagnostic and Interventional Knee Arthroscopy, gaining specialised skills in the diagnosis and treatment of knee injuries and joint disorders. Throughout his career, Dr. Pal has worked with several reputed healthcare institutions in Kolkata and Siliguri. His professional journey includes serving as a Senior Registrar at BORRC, Registrar at Columbia Asia Hospital, Kolkata, and Clinical Associate at Neotia Getwel Hospital, Siliguri, before taking up a consultant role in orthopaedics. These experiences have enabled him to develop strong clinical expertise in managing both routine and complex orthopaedic conditions. Dr. Pal

has extensive experience in trauma and fracture management involving both the upper and lower limbs. He is proficient in performing various orthopaedic procedures, including intramedullary nailing of long bones such as the femur, tibia, humerus, radius, and ulna, as well as plating procedures for fractures, including clavicle fractures. His areas of expertise also include joint replacement surgeries such as Total Knee Replacement, Total Hip Replacement, and Hemiarthroplasty. Known for his patient-focused approach, Dr. Pal believes in delivering personalised treatment plans that support faster recovery and improved mobility. He remains committed to helping patients regain function, reduce pain, and return to their daily activities with confidence through evidence-based orthopaedic care.
