

DR. ABHIGNA PANDA

Consultant - Urology

Qualification

MBBS | MS - General Surgery | MCh - Urology

Overview

Dr. Abhigna Panda is an experienced urologist in Bangalore. She is currently practising as a Consultant - Urology at Manipal Hospital Varthur Road, Bangalore. With extensive expertise in urological surgeries, including robotic and minimally invasive procedures, Dr. Abhigna is dedicated to providing advanced, patient-centric care. She is an expert urologist in Varthur Road. Dr. Abhigna holds an MBBS degree and specialises in urology, with an MS in General Surgery and an M.Ch in Urology. Her professional journey reflects his commitment to excellence in surgical precision, innovation, and compassionate patient care. She has actively participated in and performed various major and minor urological procedures, including endourology, reconstructive urology, renal transplantation, and robotic-assisted surgeries. Her experience in handling complex cases and his proficiency in cutting-edge techniques make him a trusted expert in his field. With a strong foundation in minimally invasive and robotic surgery, Dr. Abhigna has assisted in numerous robotic-assisted renal transplant surgeries, prostatectomies, adrenalectomies, and cystectomies. Her expertise extends to performing and assisting in

laparoscopic and open nephrectomies, pyeloplasties, ureterolithotomies, and radical prostatectomies. She is also skilled in treating urinary tract disorders, kidney stones, prostate conditions, and urological cancers. Her hands-on experience with reconstructive procedures, including urethroplasty and female urethral reconstruction, underscores her ability to restore functionality and improve patient outcomes. Dr. Abhigna is deeply committed to staying at the forefront of urological advancements. She actively conducts research, training, and professional development, ensuring her patients benefit from the latest treatment modalities. Her clinical acumen is complemented by her involvement in academic discussions and surgical workshops, where she shares insights on advanced urological techniques. Her research contributions, including studies on percutaneous nephrolithotomy and female urethral stricture management, reflect his dedication to evidence-based practice and continuous learning. A firm believer in holistic and patient-centred care, Dr. Abhigna prioritises clear communication and patient education. She ensures that individuals understand their diagnosis, treatment options, and post-operative care, empowering them to make informed decisions about their health. Her compassionate approach and technical proficiency help create a supportive and reassuring environment for patients undergoing surgical and non-surgical urological treatments. Dr. Abhigna's expertise extends beyond surgical interventions to preventive urological care. She advocates for early screening and timely intervention in conditions such as kidney stones, prostate disorders, and urinary incontinence. By integrating advanced diagnostic tools and minimally invasive techniques, she strives to enhance recovery times, reduce post-operative complications, and improve overall patient well-being. Fluent in English, Hindi, Telugu, Tamil, and Marathi, Dr. Abhigna ensures effective communication with patients from diverse linguistic backgrounds. Her ability to explain complex medical conditions in a simple, patient-friendly manner fosters trust and comfort, making the treatment journey smoother for

her patients.
