

DR. SUDHEER KUMAR .G

Consultant - Neurosurgery

Qualification

MBBS | MS - General Surgery | MCh - Neurosurgery

Overview

Dr. Sudheer Kumar is a highly accomplished Neuro Surgeon, based at Manipal Hospitals in Vijayawada. With a rich background in neurosurgery, his journey has been marked by significant contributions to patient care and medical innovation. Dr. Kumar's professional voyage commenced as a Junior Consultant in the Department of Neurosurgery at Meenakshi Mission Hospital and Research Centre in Madurai from 2013 to 2014. During this pivotal phase, he was exposed to diverse neurosurgical cases, allowing him to fine-tune his skills and cultivate a compassionate approach towards patients, making him the best neurosurgeon in Vijayawada. Subsequently, Dr. Kumar progressed to the role of a Consultant in the Department of Neurosurgery at Hannah Joseph Hospital, Madurai, between 2014 and 2015. This engagement enabled him to expand his expertise and further enhance his proficiency in intricate neurosurgical procedures. Dr. Sudheer Kumar boasts an impressive academic background. He obtained his MBBS degree from the renowned Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER), setting the foundation for his medical journey. He pursued further specialisation at Goa Medical

College, completing his MS in General Surgery. Driven by his passion for neurosurgery, he returned to JIPMER to achieve his MCh in Neurosurgery, solidifying his commitment to the field. Dr. Kumar's skills encompass a wide spectrum of neurosurgical domains, reflecting his comprehensive expertise. He is a specialist in neuro-oncology and skull base surgery, adeptly addressing complex brain and spinal tumours with precision. His proficiency extends to vascular neurosurgery, where he skilfully manages intricate vascular conditions, including aneurysms and malformations. Dr. Kumar is highly skilled in neurotrauma cases, where his decisive interventions are critical in emergencies. His repertoire also includes endoscopic neurosurgery, which enables minimally invasive yet highly effective treatments for various neurological disorders. His dedication to innovative techniques is evident in his prowess in minimally invasive spine surgery, a method that promotes quicker recovery and reduced post-operative discomfort. His compassionate demeanour shines in his practice of paediatric neurosurgery, where he ensures the best possible care for young patients. His commitment to advancing medical care, coupled with his compassionate patient-centric approach, makes him a valuable asset in the realm of neurosurgery.

Fellowship & Membership
