

DR. RAJA ARAVINDA SAI GOGINENI

Associate Consultant - Anasthesia

Qualification

MBBS | MD Anasthesia

Overview

Dr. Raja Aravinda Sai Gogineni is a dedicated anaesthesiologist in Vijayawada with Expertise in Oncologic Care and is currently associated with Manipal Hospitals in Vijayawada. He is a highly qualified anaesthesiologist with a passion for patient care, particularly in the field of oncology. Dr. Gogineni boasts a comprehensive training background, starting with a strong foundation in Internal Medicine, Surgery, and other specialities during his internship. He completed his MBBS from Maharaja’s Institute of Medical Sciences and then pursued his MD in Anaesthesiology, gaining valuable experience in managing anaesthesia for a wide range of surgeries across various departments, including Neurosurgery, Cardiothoracic Surgery, and Obstetrics & Gynaecology. Dr. Gogineni's dedication to patient well-being is further highlighted by his Fellowship in Oncoanesthesia at the prestigious Basavatarakam Indo-American Cancer Hospital and Research Centre. This fellowship equipped him with the expertise to provide safe and effective anaesthesia for complex oncological procedures such as pneumonectomy, lobectomy, and head and neck surgeries with reconstruction. Dr. Gogineni is proficient in using

advanced equipment like FOB (Fibre Optic Bronchoscope) and VLS (Video Laryngoscope), ensuring smooth and efficient airway management for patients. Also, he is skilled in PICC line placement, a crucial technique for delivering medication to cancer patients. Dr. Gogineni also trained in Pain and Palliative Care, which allows him to better understand the specific needs of cancer patients. This also helps him to effectively manage pain throughout the treatment journey, enhancing patient comfort and well-being. Dr. Gogineni demonstrates a commitment to continuous learning. He has actively participated in various conferences and CMEs (Continuing Medical Education), presenting research posters and attending presentations on topics like managing anaesthesia for complex cases and comparing medications for postoperative pain relief. Dr. Gogineni's expertise in oncological anaesthesia, combined with his diverse experience and dedication to patient care, makes him a valuable asset for those seeking safe and compassionate anaesthesia management during their cancer treatment.
