

DR. HARI PRASAD N

Consultant - Urology & Renal Transplant Surgeon

Qualification

MBBS | MS (General Surgery) | MCh (Urology)

Overview

Dr. Hari Prasad N is an experienced urologist in Bangalore. He is currently practising as a Consultant – Urology and Renal Transplant Surgeon at Manipal Hospitals, Vijayawada. He brings a robust blend of surgical expertise and academic knowledge to his role. After earning his MBBS, he pursued an MS in General Surgery, where he distinguished himself by receiving the Chennabassavappa Memorial Award for highest marks in General Surgery and topping Forensic Medicine. He further specialised with an MCh in Urology, honing skills across the full spectrum of urological care. At Manipal Hospitals, Vijayawada, he applies this extensive training to manage both routine and complex cases with precision and empathy. He is the best Urology Doctor in Vijayawada. His clinical practice encompasses optical urethrotomy for urethral strictures, anastomotic urethroplasty for more challenging strictures, pyeloplasty for UPJ obstruction, and comprehensive stone management including PCNL, URSL, ESWL, and RIRS. He is adept at prostate procedures (TURP, laser prostatectomy), urogynecological surgeries, and andrology. His laparoscopic proficiency and involvement in renal transplant surgeries further reflect a

commitment to minimally invasive and organ-preserving approaches. In each case, Dr. Hari Prasad emphasises individualised care, selecting the optimal technique and technology suited to the patient's condition and overall health. Beyond the operating room, Dr. Hari Prasad contributes to urological scholarship and quality improvement. He has presented retrospective reviews, such as a 50-case series of renal trauma, and analyses on preventing postoperative infections in transplant recipients at major urology conferences. His discussions on antibiotic use in office cystoscopy and contributions to metastatic adenoid cystic carcinoma and renal trauma have been featured at national forums. He has authored work on predictors of nephrectomy in high-grade renal trauma published in peer-reviewed journals. Dr. Hari Prasad is also committed to teaching and mentoring. He guides residents and junior colleagues in surgical techniques, perioperative care, and research methodology. Patient communication and compassion are central to his approach. Fluent in Telugu, English, and Hindi, he ensures that patients and families understand their diagnoses, treatment options, and postoperative expectations. He builds trust through transparent dialogue and shared decision-making, recognising the anxiety that often accompanies urological conditions. His calm demeanour and attentiveness foster a supportive environment where patients feel heard and empowered. Looking ahead, Dr. Hari Prasad continues to integrate emerging technologies, such as robotics and advanced imaging, into practice at Manipal Hospitals, Vijayawada.
