

DR. CHAMUNDESWARI T

Consultant - Ophthalmology

Qualification

MBBS | D.O | DNB

Overview

Dr. Chamundeswari is a skilled ophthalmologist in Vijayawada with over a decade of focused experience in cataract and anterior segment surgery. She is currently practising as a Consultant – Ophthalmology at Manipal Hospitals Vijayawada. Her clinical practice focuses on comprehensive anterior segment care, with expertise in cataract procedures, phacoemulsification, secondary intraocular lens implantation, and laser-based anterior segment interventions. After completing her undergraduate medical education in 2009 at Dr. Pinnamaneni Siddhartha Institute of Medical Sciences, she pursued a Diploma in Ophthalmology at Guntur Medical College from 2010 to 2012. She further strengthened her specialist credentials by completing her Secondary DNB at Sankara Eye Hospital, Peddakakani, Guntur, between 2013 and 2015. During her training, she also underwent short-term phaco training at Visiontree under Dr. Madhu Uddaraju, refining her technique in modern cataract surgery. She secured the 2nd Rank in her postgraduate examinations, reflecting academic distinction alongside clinical training. Her surgical experience includes performing over 2000 cataract surgeries, including both Small

Incision Cataract Surgery (SICS) and phacoemulsification, along with secondary intraocular lens implantations. She performs phacoemulsification up to Grade 3 cataracts and is proficient in YAG capsulotomy and peripheral iridotomy procedures. Her clinical practice also involves refractive evaluation using Orbscan technology and administering intravitreal injections when indicated. This consistent surgical exposure and structured approach position her among the best ophthalmologists in Vijayawada for comprehensive cataract and anterior segment care. Dr. Chamundeswari has developed substantial surgical experience through structured clinical training and hands-on exposure to cataract and anterior segment procedures. Her work reflects consistent involvement in operative planning, laser interventions, and detailed pre- and post-operative evaluation. At Manipal Hospitals, Vijayawada, she provides comprehensive hospital-based ophthalmic services, including cataract surgery, laser procedures such as YAG capsulotomy and iridotomy, refractive assessment, and intravitreal injections within a coordinated multidisciplinary setting. Her academic engagement includes presenting a paper at the APOS State Conference 2016 titled “Management of Craniofacial Dysplasia Abetting the Orbit,” demonstrating her interest in complex orbital and craniofacial associations. Her structured surgical methodology, experience in cataract volume surgery, and comfort with laser interventions establish her among the best ophthalmologists in Vijayawada for precise, procedure-oriented eye care. Fluent in English and Telugu, she communicates clearly with patients and families regarding surgical planning and postoperative expectations. Her approach emphasises steady surgical technique, careful patient evaluation, and consistent follow-up within a hospital setting, ensuring safe and comprehensive ophthalmic care.

Fellowship & Membership

- Fellowship in Phaco and Aesthetics

Field of Expertise

- Cataract Surgery
- Refractive procedures (lasers & ICL)
- Pterygium excision with graft sutureless
- Intracanalicular lacrimal stent
- Intravitreal injections - Retina
- Botox injections
- Laser Procedures
