

DR. NAVEEN MATHEW JOSE

Consultant - Physical Medicine & Rehabilitation

Qualification

MBBS | MD (PM&R) AIIMS, New Delhi

Overview

Dr. Naveen Mathew Jose is a renowned doctor specialising in Physical Medicine and Rehabilitation. He is based in Bangalore and works at the Manipal Hospital in the Whitefield locality of the city. Dr. Naveen Mathew Jose is one of the best Physical Medicine and Rehabiliation specialist in Bangalore. He has worked in this field for over 11 years and is now a Consultant in Physical Medicine and Rehabilitation. He is a member of various reputed societies and has worked at some of the best hospitals in the city. He works in the highly specialised area of pain management as well. He completed his MBBS from the Academy of Medical Sciences in Kannur 2001. He is a fellow of a reputed institute in Chennai in pain management. He was a Senior Resident at the All India Institute of Physical Medicine and Rehabilitation - AllPMR for two years. He is skilled in rehabilitating children (paediatric rehabilitation) and rehabilitating patients after chronic pain. He has worked as a member with the Indian Association of Physical Medicine & Rehabilitation for few years. He has given lectures on various topics during CMEs and workshops held at Manipal Hospitals, Dr. Umashankar Centre for Neurorehabilitation, Administration Training Institute (ATI), Mysore, etc. He did an MD (Doctor of Medicine) from the All India Institute of Physical Medicine and Rehabilitation in 2006. Dr. Naveen is the the best physicial medicine professional in Whitefield, Bangalore. Dr. Naveen has been a Research Associate at the famous All India Institue of Medical Sciences for 6 months in 2007. He is an expert in the field of managing and modification of obesity and lifestyle diseases. He is a part of the Indian chapter of the Spinal Cord Society. He has treated common injuries like ankle sprains, low back pain, shoulder pain, joint pain, etc. He gave a lecture about "How to do we Optimise Post Stroke Spasticity Management with Onabotulinumtoxin A" in May 2019 at a workshop on upper limb spasticity. He has experience in treating chronic syndromes such as myofascial pain, fibromyalgia, and lifestyle diseases. He is skilled in performing interventional procedures like nerve simulator-guided BOTOX (Botulinum toxin) injections for spasticity. He has also used intra-articular hyaluronic acid injections and steroids for treating frozen shoulders and osteoarthritis. He gave a lecture about 'Stroke Rehabilitation' at Manipal Hospital in the year 2016. Internationally, he has lectured about "Orthotic management and offloading in Diabetic foot" during a course designed by the Schieffelin Institute of Health Research in collaboration with Tameside General Hospital, Lancashire, in the United Kingdom. He was part of a rehabilitation camp organised by the Association of People with Disability in 2012 to provide professional recourse help. He consults patients about neurosurgery, intensive units, rehab planning, and managing neurological pains. He helps critically ill patients return to everyday lifestyles through rehabilitation and pain management.
