

DR. RAJESH K S

Associate Consultant - Paediatrics

Qualification

MBBS | MD Paediatrics | Fellowship in Neonatology, NNF | PGPN, Boston | ICAN, RCPCH | Paediatric Rheumatology - EULAR | Advanced Asthma and Allergy Course, IAP - NRC

Overview

Dr. Rajesh K S is a paediatrician and neonatologist with over seven years of clinical experience in the care of newborns, infants, children and adolescents. He is currently serving as an Associate Consultant – Pediatrics at Manipal Hospital Whitefield, Bangalore. His areas of expertise include neonatal intensive care, preterm care, pediatric emergency and critical care, pediatric asthma and allergy, pediatric rheumatology and pediatric nutrition. With his broad clinical experience, he is a strong option for parents seeking the best paediatrician and neonatologist in Whitefield, Bangalore. Dr. Rajesh holds an MBBS from Karnataka Institute of Medical Sciences, Hubballi, and an MD in Paediatrics from Sawai Man Singh Medical College, Jaipur. He has also completed a Fellowship in Neonatology at an esteemed tertiary-care hospital in Bengaluru, along with certifications in Pediatric Rheumatology (EULAR), Advanced Asthma Care (IAP NRC), Pediatric Nutrition (Boston), Advanced Nutrition Care (RCPCH), PALS and NRP. His neonatal practice includes the management of extreme preterm and very-low-birth-weight infants, some weighing under 800 g, as well

as high-risk deliveries, delivery-room stabilisation and neonatal resuscitation. During his fellowship, he attended more than 150 deliveries a month and gained experience with advanced respiratory support, surfactant therapy, total parenteral nutrition and family-centred developmental care in the NICU. In pediatrics, he provides outpatient care for infants, children and adolescents, covering immunisations, acute illnesses, growth monitoring and developmental screening. His emergency and PICU experience includes the stabilisation of children with respiratory failure, septic shock and status epilepticus. He also manages bronchial asthma, allergic rhinitis, atopic dermatitis and food allergies, as well as childhood autoimmune conditions such as juvenile idiopathic arthritis, lupus and vasculitis. His nutrition training supports the management of failure to thrive, picky eating and micronutrient deficiencies. His professional experience includes consultant roles at esteemed hospitals in Bengaluru and an academic appointment as Assistant Professor of Pediatrics at a reputed medical college. He has authored several journal publications on infantile hypertriglyceridemia, cholestatic jaundice, pediatric pain management and procedural sedation. His recognitions include a gold medal in his neonatology fellowship examination and prizes at IAP postgraduate quizzes. He is proficient in English, Kannada, Hindi, Telugu and Tamil.
