

DR. HARISH BABU REDDY N A

Consultant - Medical Gastroenterology

Qualification

MBBS | MD | DM

Overview

Dr. Harish Babu Reddy N A is a highly skilled Gastroenterologist in Yelahanka. He is currently practising as a Consultant – Gastroenterology at Manipal Hospital Yelahanka, Bengaluru, bringing extensive clinical expertise and academic excellence to the diagnosis and management of complex gastrointestinal, hepatic, and pancreatic disorders. Recognised as one of the best gastroenterologists in Yelahanka, Dr. Harish combines years of advanced training from India's premier medical institutions with a patient-centric approach rooted in compassion, precision, and continuous innovation. Having completed his DM in Gastroenterology from the Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh, and MD in Internal Medicine from the All India Institute of Medical Sciences (AIIMS), New Delhi, Dr. Harish belongs to a rare cadre of specialists trained at both of India's top-ranked tertiary care centres. His rigorous training encompassed a wide spectrum of diagnostic and therapeutic endoscopic procedures, including upper and lower gastrointestinal endoscopy, ERCP, and endoscopic ultrasound (EUS). During this period, he served as an independent primary operator in numerous complex

procedures, building profound hands-on experience in managing diverse cases ranging from peptic ulcers and inflammatory bowel disease to hepatobiliary malignancies and pancreatic disorders. Dr. Harish's clinical practice at Manipal Hospital Yelahanka reflects a meticulous and evidence-based approach to gastroenterology. He is adept at diagnosing and treating conditions such as acid reflux disease, chronic liver disease, jaundice, gastrointestinal bleeding, irritable bowel syndrome, pancreatitis, hepatitis, and gallbladder disorders. His experience also extends to hepatology and advanced endoscopic interventions, where he routinely performs therapeutic procedures for bile duct stones, strictures, and gastrointestinal bleeding control. Known for his calm composure and clinical accuracy, he is frequently sought after for his expertise in handling intricate cases that require both precision and patience.5 His academic and research background further enhances his clinical acumen. His DM thesis at PGIMER explored the risk factors associated with pre-malignant and malignant lesions of the gallbladder, while his MD thesis at AIIMS focused on hemodynamic monitoring in critically ill patients, both of which contributed significantly to understanding high-risk gastrointestinal and systemic conditions. His research has been recognised in several national and international conferences, including ISGCON Bhubaneswar and DDW Washington, and his findings have been published in reputed journals such as Gastroenterology. Throughout his career, Dr. Harish has demonstrated an unwavering commitment to advancing patient care through research and continuous learning. He has been an active contributor to national medical guidelines such as the INOSA Guidelines (2014) and the Adult Immunisation Program Guidelines (2014), reflecting his dedication to elevating standards of clinical practice in India. His participation in numerous academic conferences, ranging from INASL and ISGCON to AIIMS Medicine Updates, underscores his passion for keeping pace with evolving advances in gastroenterology. At Manipal Hospital Yelahanka, Dr. Harish continues to provide holistic, technology-supported care to

patients with digestive and liver disorders. His approach extends beyond symptom relief, focusing on early diagnosis, long-term disease management, lifestyle modification, and preventive gastroenterology. Whether performing intricate endoscopic procedures or counselling patients on chronic liver disease management, his goal remains the same: to ensure accurate diagnosis, safe intervention, and lasting recovery. With his rare blend of academic rigour, clinical dexterity, and empathetic care, Dr. Harish Babu Reddy N A stands among the best gastroenterologists in Yelahanka, offering world-class expertise grounded in ethical and personalised medicine. His work continues to transform lives through the seamless integration of advanced science, clinical precision, and a deep respect for patient well-being.
