

DR. BHARATH NAYAK G

Associate Consultant - Neurosurgery

Qualification

MBBS | MS (General Surgery) | MCh (Neurosurgery)

Overview

Dr. Bharath Nayak G is a clinically focused neurosurgeon in Yelahanka. He is currently practising as a Consultant – Neurosurgery at Manipal Hospital Yelahanka, Bangalore, with over 2 years of experience in managing complex cranial, spinal, and paediatric neurosurgical conditions. Dr. Bharath's practice is anchored in a strong foundation of structured surgical training and hands-on clinical exposure across major academic and tertiary care institutions. He completed his MBBS at M.S. Ramaiah Medical College, followed by an MS in General Surgery from Bangalore Medical College and Research Institute, and went on to pursue an M.Ch. in Neurosurgery at M.S. Ramaiah Medical College. Marked by consistent academic success, his training demonstrates discipline and a sustained commitment to surgical excellence. His clinical expertise spans neurotrauma, neuro-oncology, spine surgery, and paediatric neurosurgery. Dr. Bharath is actively involved in the management of traumatic brain and spinal injuries, including intracranial haemorrhages, skull fractures, and spinal trauma requiring stabilisation. In neuro-oncology, he manages both benign and malignant brain and spinal tumours, with a focus on safe resection,

neurological preservation, and multidisciplinary coordination. His spine practice includes degenerative spine disorders, disc disease, spinal infections, and selected deformity conditions, managed through evidence-based surgical planning. A significant area of interest in Dr. Bharath's work is paediatric neurosurgery. Through his association with the INGA Foundation, he contributes to the surgical care of children with congenital and acquired neurological conditions. His approach in paediatric cases emphasises meticulous planning, family counselling, and long-term neurological outcomes, recognising the unique needs of growing children and their caregivers. This focus has positioned him as one of the best neurosurgeons in Yelahanka for families seeking structured neurosurgical care for children. His academic engagement continues through research and publications. He has authored peer-reviewed papers in recognised journals, including work on surgical techniques for chronic subdural haematoma and intraoperative cerebrospinal fluid glucose monitoring. He has also been recognised at national conferences, securing awards for paper presentations, reflecting his ongoing involvement in clinical research and academic dialogue. At Manipal Hospital Yelahanka, Dr. Bharath plays an active role in delivering comprehensive neurosurgical consultations, surgical care, and coordinated follow-up. His clinical style combines clear communication, careful risk assessment, and a calm, reassuring approach, particularly in high-stress neurological conditions. His depth of training, focused surgical interests, and patient-centred care approach reinforce his reputation as one of the best neurosurgeons in Yelahanka.

Fellowship & Membership

- Registered with Karnataka Medical Council (KMC)
- Active participation in national neurosurgical conferences and academic forums

Field of Expertise

- Neuro-trauma & head injury management
- Brain tumour surgery
- Spine surgery (degenerative & traumatic conditions)
- Paediatric neurosurgery
- Chronic subdural hematoma surgery
- Emergency neurosurgical procedures
- Cranial and spinal decompression surgeries

Languages Spoken

- Kannada
- English
- Hindi
- Telugu

Awards & Achievements

- ASICON, Bubhaneshwar 2019- 3rd prize in paper presentation
- BCBR- April 2023

Talks & Publications

- Validating the efficacy of two Burr-hole craniostomy over Mini-craniotomy for Chronic Subdural Hematoma drainage in “Asian journal of neurosurgery 2023
- Correlation between intra-operative CSF glucose estimation using glucometer against the conventional laboratory techniques and it’s applications- “ICMJE”
