

DR. AMIT B

Associate Consultant - Paediatric Surgery

Qualification

MBBS | MS (General Surgery) | DNB (Paediatric Surgery) | PDF Paediatric Surgical Gastroenterology

Overview

Dr. Amit is a highly skilled paediatric surgeon in Yelahanka. He is currently practising as an Associate Consultant - Paediatric Surgery at Manipal Hospital Yelahanka, Bangalore, bringing extensive expertise in paediatric surgical gastroenterology, neonatal surgery, paediatric urology, and minimally invasive surgery. With a solid foundation in both general and paediatric surgery, complemented by advanced fellowships and specialised training, he is recognised for his meticulous surgical approach, clinical precision, and deep commitment to delivering safe, compassionate, and child-centred care. His expertise in laparoscopic and thoracoscopic procedures, robotic paediatric surgery, and complex neonatal surgical interventions positions him among the best paediatric surgeons in Yelahanka, trusted by parents for his holistic, evidence-based, and highly skilled care. Dr. Amit began his medical journey with an MBBS, followed by MS in General Surgery. His passion for paediatric surgical care led him to pursue DrNB in Paediatric Surgery, an advanced and highly demanding super-speciality qualification. To further enrich his surgical capabilities, he completed a prestigious Post-Doctoral Fellowship (PDF) in Paediatric

Surgical Gastroenterology from SGPGI, Lucknow, one of India's premier medical institutions. This specialised training allowed him to refine his skills in advanced paediatric gastrointestinal conditions, hepatobiliary surgeries, complex congenital anomalies, and advanced minimally invasive surgical techniques. His extensive training and hands-on experience in high-volume paediatric centres give him deep expertise in handling both routine and rare paediatric surgical conditions. At Manipal Hospital Yelahanka, Dr. Amit specialises in diagnosing and treating a wide range of paediatric conditions requiring surgical intervention, including congenital diaphragmatic hernia, anorectal malformations, tracheoesophageal fistula, Hirschsprung's disease, paediatric tumors, and complex gastrointestinal and hepatobiliary conditions. His proficiency spans robotic paediatric surgery, laparoscopy, thoracoscopy, and neonatal surgical interventions, making him a strong advocate for minimally invasive procedures that ensure faster recovery, reduced discomfort, and minimal scarring for young patients. His expertise, combined with advanced technology, has made him one of the most trusted names for families searching for the best paediatric surgeon in Yelahanka. He is known for his dedication to neonatal surgical care, often managing high-risk cases of premature infants and newborns with congenital anomalies requiring immediate surgical intervention. His calm and reassuring presence, coupled with his ability to explain complex medical conditions in a parent-friendly manner, instils confidence in families during emotionally challenging moments. He emphasises not only surgical precision but also long-term outcomes, post-operative care, and developmental monitoring, ensuring that every child receives the most comprehensive care possible. Dr. Amit is also actively engaged in academic and professional development, having presented at national conferences on vital topics such as anorectal malformations, achalasia cardia, and robotic congenital diaphragmatic conditions. His contributions reflect his commitment to innovation, research-driven practices, and clinical excellence. He remains passionate about

integrating modern surgical advancements with compassionate paediatric care, ensuring every child receives the safest and most effective treatment. Equally fluent in Kannada, English, Hindi, Telugu, and Tamil, Dr. Amit communicates seamlessly with families from diverse backgrounds, offering them not only medical expertise but also comfort, clarity, and trust. Known for his patient-first philosophy, he believes in aligning surgical excellence with emotional support, parental counselling, and family-centred involvement. With his empathetic approach, technical mastery, and commitment to advancing paediatric surgery, Dr. Amit stands as a notable and respected figure in paediatric surgical care, continuing to shape the future of child-friendly surgical excellence at Manipal Hospital Yelahanka.
