

DR. DEEPAK N

Lead Consultant- Neurology

Qualification

MBBS | MD (Internal Medicine) | DM (Neurology) | SCE Neurology RCP UK

Overview

Dr. Deepak N is an experienced neurologist in Yelahanka with more than eight years of expertise in neurology and the management of complex neurological disorders. He is currently practising as a Lead Consultant – Neurology at Manipal Hospital Yelahanka, Bangalore, with specialised expertise in stroke care, movement disorders, epilepsy, neuroimmunology, and comprehensive neurological management. His extensive experience in treating acute and chronic neurological conditions has established him among the best neurologists in Yelahanka for advanced neurological care and long-term disease management. Dr. Deepak completed his MBBS from Bangalore Medical College and Research Institute, followed by an MD in General Medicine from ESIC-MC-PGIMSR, Bangalore. He subsequently pursued a DM in Neurology from Bangalore Medical College and Research Institute, where he developed specialised expertise in clinical neurology and complex neurological disorders. His academic achievements include securing Rank 1 in the Karnataka Super Speciality Entrance Test for DM Neurology and successfully clearing the Speciality Certificate Examination (SCE) in Neurology, UK. At Manipal Hospital Yelahanka, Dr.

Deepak manages a broad spectrum of neurological conditions, including stroke, Parkinson's disease, epilepsy, headaches, neuroimmunological disorders, spinal cord diseases, cognitive disorders, and movement disorders. His clinical work includes evaluation and management of acute neurological emergencies, stroke thrombolysis, seizure disorders, neuromuscular conditions, and long-term care planning for progressive neurological illnesses. His expertise extends to EEG interpretation, ENMG evaluation, movement disorder assessment, neuro-otological conditions, and management of autoimmune neurological disorders. He also has substantial experience in multidisciplinary neurological care involving rehabilitation strategies and evidence-based treatment protocols designed to improve functional outcomes and quality of life. His expertise in stroke management and complex neurological disorders positions him among the best stroke specialists in Yelahanka for comprehensive neurological assessment and treatment. Alongside his clinical practice, Dr. Deepak remains actively involved in academic and scientific activities. He has presented research and clinical work at multiple national conferences, including IANCON, APICON, KAPICON, and Stroke Conferences. His research interests include neuroimmunology, epilepsy, stroke outcomes, and movement disorders. He is affiliated with professional organisations, including the Indian Academy of Neurology and the American Academy of Neurology, reflecting his continued engagement with advancements in neurological science and patient care.
