

DR. AJAY S. SHETTY

Lead Consultant - Urology Renal Transplantation & Robotics Surgeon

Qualification

MBBS | DNB (General Surgery) | DNB (Urology)

Overview

Dr. Ajay Shetty is the best urologist in Bangalore. He has an experience of more than 19 years in the fields of Urology, Andrology, and General Surgery. He is also a specialist in performing renal transplantation surgery. He works at the Manipal Hospitals located in Yeshwanthpur, Bangalore, as a Lead Consultant in Urology Renal Transplantation and Robotics Surgery. He is highly qualified with two DNBs in different areas and also has memberships in reputed associations. He guides and teaches postgraduate students who are interested in pursuing their DNB degrees. He completed his MBBS from the JSS Medical College Mysore in the year 1999. He did his DNB in the field of Urology from the Muljibhai Patel Centre For Research in Nephro-Urology located in Gujarat. He has done another DNB in General Surgery from the Bangalore Baptist Hospital. He won a Dr. B. Ramamurthy DNB Gold medal in the year 2004 for getting the highest marks in the subject of General Surgery. He contributed a lot to starting the Urology unit at the Bangalore Baptist Hospital. He was a coordinator of the DNB Program at that hospital and was also the assistant chief of its medical staff. He has written a chapter about healthcare communication in a book

compiled by the Quality Council of India. He is the co-author of the first Indian book about healthcare communication, which was endorsed by the National Board of Examinations and sold more than 10,000 copies. He is an expert in treating male infertility and erectile dysfunction using andrological procedures. No wonder he is considered the best urologist in Bangalore. He has also performed many urological cancer surgeries, pediatric urological surgeries, and renal transplantations. He started to provide andrology services and female urology treatments at the Bangalore Baptist Hospital. Dr. Shetty has advised many patients about kidney stones, benign prostatic enlargement, male infertility and impotence. He has worked as a teacher of the subject of anatomy' at the Farooqia Dental College. He is a member of the American Urology Association as well. He is skilled in performing Endourological procedures for stone diseases, Uro-oncological surgeries, and Reconstructive urological procedures for treating Urethral stricture disease. He has worked at the Sakra World Hospital as a Senior Consultant and helped extensively in starting the Department of renal sciences at the hospital. He works as a trainer of healthcare communication and conducts workshops organised by the Consortium of Accredited Healthcare Organisations. He started performing renal transplants at the Sakra World Hospital. He has expertise in treating cancers of the kidney, bladder, and prostate. His article about the Synchronous Twin-Tract Percutaneous Nephrolithotomy in the Journal of Endourology in its 24th volume.
